A Criminology of War? Ross McGarry, Sandra Walklate, 2021-01-20 In

recent years the academic study of war has gained renewed popularity in criminology This book illustrates its long standing engagement with this social phenomenon within the discipline Foregrounding established criminological work addressing war and connecting it to a wide range of extant sociological literature the authors present and further develop theoretical and conceptual ways of thinking critically about war Providing a critique of mainstream criminology the authors question whether a criminology of war is possible and if so how this seemingly new horizon of the discipline might be usefully informed by sociology

Research Handbook of Sustainability Agency Teerikangas, Satu, Onkila, Tiina, Koistinen, Katariina, Mäkelä, Marileena, 2021-07-31 This innovative Research Handbook answers crucial questions about how individuals and organisations can make a difference towards sustainability Offering an integrative perspective on sustainability agency it reviews individual active organisational and relational forms of sustainability agency demonstrating the capacity of individuals and organisations to act toward sustainable futures

Sustainable High Volume Road and Rail Transport in Low Income Countries Michael Burrow, Gurmel Ghataora, Bruce Thompson, Bernard Obika, 2021-01-13 This Special Issue presents an in depth analysis of transport research commissioned by the UK Department for International Development under the High Volume Transport Programme 2017 2023 The analysis done in the period 2018 2019 contributes to the UK response to improving transport in the low income countries in Africa and South Asia As a result key priorities have been identified for applied research in 2020 to make road rail and urban transport more efficient and affordable and all transport greener safer and more inclusive for all users This applied research is a vital link in making transport a sustainable lifeline for people in low income countries because transport gives farmers and manufacturers access to domestic and international markets and people in rural and urban areas access to schools and health services

The Global Tax Environment in 2016 and Implications for International Tax Reform United States. Congress. House. Committee on Ways and Means, 2017

How People Compare Mathijs Pelkmans, Harry Walker, 2022-12-26 This book focuses on comparison in anthropology turning an ethnographic lens onto the diversity of comparative practice It seeks to understand how why and with what consequences diversely situated groups of people many of whom operate on radically different premises to professional anthropologists make comparisons above all between themselves and real or imagined others What motivates people to compare what techniques or logics do they employ and what are the most likely outcomes both intended and unintended How do comparative practices reflect reinforce or refuse uneven relations of power And finally what can a rejuvenated comparative anthropology learn from the anthropology of comparison The volume develops a dialogue between scholars with long term ethnographic engagement in a variety of contexts around the world and is particularly valuable reading for those interested in anthropological methodology and theory

Financial Determinants of High-Growth Companies Blaž Frešer, Karin Širec, Polona Tominc, 2020-11-13 This book explores the factors that contribute to high corporate growth presenting a new conceptual model for research into this phenomenon Building on existing research

the authors present a new conceptual research model that links multidimensional variables such as entrepreneurial orientation and human capital with the perceived availability of different forms of financing for high growth companies and with the measures that these firms take to overcome financial constraints and thus influence their financial performance. With this model the authors aim to enhance our understanding of the specifics of financing high growth companies and demonstrate how the availability of financial resources is one of the most important determinants of promoting development and enterprise growth. Empirically tested on a random sample of high growth companies from Slovenia, the book seeks to make a contribution to research and enhance our understanding of the various factors involved in high growth firms.

Sustainable Operations and Supply Chain Management Melanie E. Kreye, 2023-01-31 This book takes as its starting point the need to improve sustainability performance across the triple bottom line and reach global sustainable development goals. As such, it places sustainability at the heart of developing and explaining relevant theory, concepts and models in operations and supply chain management. Whereas previous textbooks on operations and supply chain management have focused on augmenting existing models of operations and supply chain management by simply adding on selected sustainability issues, this textbook places sustainability at the heart of operations and supply chain management. *Sustainable Operations and Supply Chain Management* consolidates the tools, concepts and methods of operations and supply chain management relevant for reaching sustainable development goals. This book includes not only descriptions of the theories and models but also practical cases based on the most recent developments in different industry sectors including user electronics, healthcare, fashion and energy. Relevant student exercises are also included for use in the classroom or in personal study. This book provides an ideal introduction for Bachelor or Masters level students whether they are on general management and business degrees or are focused on areas such as engineering, management, technology management or sustainability management. Furthermore, university level teachers and lecturers will find the material presented in this book a valuable basis for structuring their courses on operations and supply chain management in the context of sustainability.

Lexical Collocation Analysis Pascual Cantos-Gómez, Moisés Almela-Sánchez, 2018-08-21 This book re-examines the notion of word associations more precisely, collocations. It attempts to come to a potentially more generally applicable definition of collocation and how to best extract, identify and measure collocations. The book highlights the role played by i) automatic linguistic annotation, part of speech tagging, syntactic parsing, etc. ii) using semantic criteria to facilitate the identification of collocations, iii) multi-word structured instead of the widespread assumption of bipartite collocational structures for capturing the intricacies of the phenomenon of syntagmatic attraction, iv) considering collocation and valency as near neighbours in the lexis grammar continuum and v) the mathematical properties of statistical association measures in the automatic extraction of collocations from corpora. This book is an ideal guide to the use of statistics in collocation analysis and lexicography as well as a practical text to the development of skills in the application of computational lexicography.

Lexical Collocation Analysis Advances and Applications begins with a proposal for integrating both collocational and valency phenomena within the overarching theoretical framework of construction grammar Next the book makes the case for integrating advances in syntactic parsing and in collocational analysis Chapter 3 offers an innovative look at complementing corpus data and dictionaries in the identification of specific types of collocations consisting of restricted predicate argument combinations This strategy complements corpus collocational data with network analysis techniques applied to dictionary entries Chapter 4 explains the potential of collocational graphs and networks both as a visualization tool and as an analytical technique Chapter 5 introduces MERGE Multi word Expressions from the Recursive Grouping of Elements a data driven approach to the identification and extraction of multi word expressions from corpora Finally the book concludes with an analysis and evaluation of factors influencing the performance of collocation extraction methods in parsed corpora

Life Care Planning and Case Management Across the Lifespan Tanya Rutherford-Owen, Mary Barros-Bailey, Roger O.

Weed, 2023-11-23 Celebrating 25 years since its first publication the fifth edition of this best selling text is the most up to date and complete resource available on what a life care planner does how the life care planner does it and issues that affect the day to day role of a life care planner Now featuring new material on pediatric life care planning and case management including brachial plexus injuries and neurodevelopmental disorders this new edition provides guidance and planning for cases across the lifespan It begins with a series of chapters examining ten different professional specializations that often contribute to a life care plan before providing critical information for developing life care plans for individuals with different physical mental and cognitive conditions including spinal cord injury brain injury and chronic pain Uniquely comprehensive the book also includes chapters on the forensic and legal context of life care planning as well as equipment technology evidence based literature resources and special education special needs planning relevant to pediatric life care planning Also including chapters dedicated to life care planning methodology and life care planning research this is an essential resource for anyone practicing or studying life care planning or managing the needs of those requiring chronic medical care over the lifespan

Education and the UN Sustainable Development Goals Kim Beasy, Caroline Smith, Jane Watson, 2023-11-02 This book focuses on the complex relationship between education and the Sustainable Development Goals SDGs and highlights how important context is for both critiquing and achieving the Goals though education given the critical role teachers schools and curriculum play in young people s lives Readers will find examples of thinking and practice across the spectrum of education and training sectors both formal and informal The book adds to the increasing body of literature that recognises that education is and must be in its praxis at the heart of all the SDGs As we enter the third decade of the 21st century we have a clear understanding of the wicked and complex crises regarding the health of life on our planet and we cannot ignore the high levels of anxiety our young people are experiencing about their future Continuing in the direction of unsustainable exploitation of people and nature is no longer an option if life is to have a flourishing future The book illustrates how SDGs

are supported in and by education and training showcasing the conditions necessary to ensure SDGs are fore fronted in policy reform It includes real world examples of SDGs in education and training contexts as well as novel critiques of the SDGs in regard to their privileging of anthropocentrism and neoliberalism This book is beneficial to academics researchers post graduate and tertiary students from all fields relating to education and training It is also of interest to policy developers from across disciplines and government agencies who are interested in how the SDGs relate to education

Prosodic Theory and Practice Jonathan Barnes, Stefanie Shattuck-Hufnagel, 2022-02-08 An introduction to the the range of current theoretical approaches to the prosody of spoken utterances with practical applications of those theories Prosody is an extremely dynamic field with a rapid pace of theoretical development and a steady expansion of its influence beyond linguistics into such areas as cognitive psychology neuroscience computer science speech technology and even the medical profession This book provides a set of concise and accessible introductions to each major theoretical approach to prosody describing its structure and implementation and its central goals and assumptions as well as its strengths and weaknesses Most surveys of basic questions in prosody are written from the perspective of a single theoretical framework This volume offers the only summary of the full range of current theoretical approaches with practical applications of each theory and critical commentary on selected chapters The current abundance of theoretical approaches has sometimes led to apparent conflicts that may stem more from terminological differences or from differing notions of what theories of prosody are meant to achieve than from actual conceptual disagreement This volume confronts this pervasive problem head on by having each chapter address a common set of questions on phonology meaning phonetics typology psychological status and transcription Commentary is added as counterpoint to some chapters with responses by the chapter authors giving a taste of current debate in the field Contributors Amalia Arvaniti Jonathan Barnes Mara Breen Laura C Dilley Grzegorz Dogil Martine Grice Nina Gr nnum Daniel Hirst Sun Ah Jun Jelena Krivokapi D Robert Ladd Fang Liu Piet Mertens Bernd M bius Gregor M hler Oliver Niebuhr Francis Nolan Janet B Pierrehumbert Santitham Prom on Antje Schweitzer Stefanie Shattuck Hufnagel A E Turk Yi Xu

Eventually, you will no question discover a supplementary experience and capability by spending more cash. nevertheless when? accomplish you resign yourself to that you require to acquire those every needs afterward having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will guide you to understand even more roughly speaking the globe, experience, some places, similar to history, amusement, and a lot more?

It is your completely own mature to perform reviewing habit. in the middle of guides you could enjoy now is **Accounting Exapler 2014** below.
