Which statement gives evidence for Brutus's tragic flaw in *The Tragedy of Julius Caesar*? ✓✓A.

Brutus decides to join the conspirators to murder Caesar.

Read the excerpts from two articles written about the same topic.

Article 1

Taxpayers will fund most of the new arena, at a cost of \$300 million. We will all be asked to share the burden of a facility that may well be replaced in 10 years, when the powers that be decide that we need yet another upgrade.

Article 2

The construction of the arena will cost the city \$300 million. Taxpayers will assume 90 percent of the cost. Several protesters showed up at city hall Tuesday to express their disapproval of the decision. They were forcibly removed by police after two hours.

Final Exam: A Novel Peter Green, 2013 Exams tend to corrupt final exams corrupt finally This novel is about exams literature sex cancer and time Part 1 1961 Examining a mind Pembroke College Cambridge Peter Green and his friends Jack big dangerous and Casey small sinister face final examinations in English Keen they discuss their literary ideas Peter whose main study aid is sexual pleasure discards lissom Arabella one of his two girlfriends Competitive exams apparently subvert left wing ideals He alienates a don Haggerty Discoverer of literary covert plotting Peter overlooks real life covert plots Part 2 1969 Examining a campus Sussex University Jack tricked by Haggerty lectures there Peter quarrels with radical students Part 3 2011 Examining a body Hospitals in and around London Peter undergoes intimate examinations Death makes incursions Now what use is the study of literature *Students' Accuracy in Written English Under the Impression of the new "G8" System - a Case Study* Johanna Schroeder, 2014-04-11 Inhaltsangabe Introduction In Germany education matters lie within the scope of each of the 16 German federal states Consequently there is no unique educational system which is valid for the entire Federal Republic of Germany but 16 individual ones However a German wide basic framework including regulations about the compulsory school attendance for instance does exist The duration of compulsory schooling until passing the Abitur at the Gymnasium however is not regulated by this framework but belongs to the power of decision of each federal state For instance in Thuringia and Saxony the duration of compulsory schooling at the Gymnasium has been limited to eight years as it was already the case before the reunification of Germany in 1990 In the other federal states like North Rhine Westphalia for example the duration of compulsory schooling at the Gymnasium included an additional ninth year resulting in the fact that the students attended the Gymnasium from grade 5 until grade 13 Nevertheless in 2001 the ministry of education of the federal state Saarland decided for a reduction of the duration of compulsory schooling at the Gymnasium by one year By now all the other federal states have followed and therefore also made the decision for a reduced duration of only eight years at the Gymnasium After many heated discussions also the North Rhine Westphalian ministry of education decided for a reduction of the duration of compulsory schooling at the Gymnasium As a consequence of this decision students of two grades G8 and G9 students entered the upper secondary level at all North Rhine Westphalian Gymnasien on August 31st 2010 Ministerium f r Schule und Weiterbildung des Landes Nordrhein Westfalen n d A The students of this so called Doppeljahrgang will all graduate in 2013 and therefore all of them will have to pass the same Abitur exams Hence it must be guaranteed that G8 students have the same preconditions as G9 students despite having one year less of general schooling before graduating Since no students have entered the upper secondary level after only five years at the Gymnasium in North Rhine Westphalia before 2010 empirical research in this area is hardly available by now Nevertheless this Doppeljahrgang offers the unique chance of directly comparing G8 and G9 students in order to find out in how far the new G8 system was implemented successfully or not Especially in the context of learning **Revisiting the**

Assessment of Second Language Abilities: From Theory to Practice Sahbi Hidri, 2018-01-12 This book presents an overview of revisiting the assessment of language abilities. It also showcases how the measurement of such constructs can result in negative or positive washback and how outcomes might be conducive to repercussions that decide on the future of many stakeholders. The 23 chapters were selected among tens of chapters received from different contexts that addressed the issue of revisiting the assessment of language abilities such as Tunisia, Ukraine, Algeria, Russia, KSA, Sudan, Egypt, Canada, Kurdistan, UK, USA, Iran, Turkey, etc. These contexts have highlighted the necessity to revisit the different constructs which should be assessed with a clear and straightforward foundation on students' learning objectives and their actual language ability. To do so, most of the chapters present hands-on use of relevant statistical tests that might serve in revisiting the construct definition both theoretically and operationally. Perhaps the sole and intricate question that the authors of these contributions ask is what it means to revisit the assessment of the construct of individualized language ability and how. In addition, the book accentuates the momentousness and significance of reflecting on test fairness and validation as the mainspring and backbone for democratization of assessment. This book appeals to a broad readership such as English Language Teaching (ELT) practitioners, language teachers, students, testing organizations, policy makers, test designers, writers of test specifications, testing experts, researchers, program evaluators, especially in the Middle East and North Africa (MENA) as well as other international contexts.

Technology-Enhanced Language Learning for Specialized Domains Elena Martín-Monje, Izaskun Elorza, Blanca García Riaza, 2016-03-10 *Technology Enhanced Language Learning for Specialized Domains* provides an exploration of the latest developments in technology-enhanced learning and the processing of languages for specific purposes. It combines theoretical and applied research from an interdisciplinary angle covering general issues related to learning languages with computers, assessment, mobile-assisted language learning, the new language massive open online courses, corpus-based research, and computer-assisted aspects of translation. The chapters in this collection include contributions from a number of international experts in the field with a wide range of experience in the use of technologies to enhance the language learning process. The essays have been brought together precisely in recognition of the demand for this kind of specialised tuition offering state-of-the-art technological and methodological innovation and practical applications. The topics covered revolve around the practical consequences of the current possibilities of mobility for both learners and teachers as well as the applicability of updated technological advances to language learning and teaching, particularly in specialized domains. This is achieved through the description and discussion of practical examples of those applications in a variety of educational contexts. At the beginning of each thematic section, readers will find an introductory chapter which contextualises the topic and links the different examples discussed. Drawing together rich primary research and empirical studies related to specialised tuition and the processing of languages, *Technology Enhanced Language Learning for Specialized Domains* will be an invaluable resource for academics, researchers, and postgraduate students in the
