teaching and learning so that all students benefit Alan Howe Education Consultant and Associate with Oracy Cambridge Purposeful classroom talk or oracy is increasingly recognised as fundamental for supporting both personal and academic development and for enhancing genuine participation in learning Based on classroom observations and interviews this book offers an analysis of schools responses to improving the quality of both learning to talk and talking to learn The book explores classroom talk through the analysis and comparison of examples drawn from diverse schools and age groups across primary and secondary education settings Alongside a wealth of practical strategies the book offers an insight into the realities of implementation helping teachers to make well informed judgments about developing classroom talk within their own schools This book features Examples of lesson activities and resources accompanied by explanations and advice from practitioners Vivid depictions of real classroom practice with comprehensive analysis linked to up to date research and theory Questions and prompts to promote reflection on the reader s own context An emphasis on teachers professional judgement and informed implementation of oracy practices A holistic and accessible resource this book is aimed at experienced early career and student teachers as well as other education professionals Rupert Knight was a teacher in schools in London and Nottingham He currently works at the University of Nottingham UK on teacher education and other postgraduate courses Rupert is the author of Classroom Talk and he continues to work closely with teachers to develop the use of spoken language in the classroom

Productive Multivocality in the Analysis of Group Interactions Daniel D. Suthers, Kristine Lund, Carolyn Penstein Rosé, Chris Teplov, Nancy Law, 2013-12-02 The key idea of the book is that scientific and practical advances can be obtained if researchers working in traditions that have been assumed to be mutually incompatible make a real effort to engage in dialogue with each other comparing and contrasting their understandings of a given phenomenon and how these different understandings can either complement or mutually elaborate on each other This key idea applies to many fields particularly in the social and behavioral sciences as well as education and computer science The book shows how we have achieved this by presenting our study of collaborative learning during the course of a four year project Through a series of five workshops involving dozens of researchers the 37 editors and authors involved in this project studied and reported on collaborative learning technology enhanced learning and cooperative work The authors share an interest in understanding group interactions but approach this topic from a variety of traditional disciplinary homes and theoretical and methodological traditions This allows the book to be of use to researchers in many different fields and with many different goals and agendas
