## **Accounting For Infrastructure Regulation Accounting For Infrastructure Regulation:**

*Accounting for Infrastructure Regulation* Martin Rodriguez Pardina, Richard Schlirf Rapti, Eric Groom, 2008 This title provides a practical guide for regulators policy makers and utility managers for establishing regulatory accounts that can be the cornerstone for better more complete and more reliable information It sets out the essential accounting features of regulatory accounts and provides practical guidance on controversial areas such as cost allocation asset valuation and depreciation It emphasizes the essential requirements for consistency with Generally Accepted Accounting Principles GAAP

### Handbook for Evaluating Infrastructure Regulatory Systems Ashley C. Brown, Jon Stern, Bernard William

Tenenbaum, Defne Gencer, 2006-01-01 More than 200 new infrastructure regulators have been created around the world in the last 15 years They were established to encourage clear and sustainable long term economic and legal commitments by governments and investors to encourage new investment to benefit existing and new customers There is now considerable evidence that both investors and consumers the two groups that were supposed to have benefited from these new regulatory systems have often been disappointed with their performance The fundamental premise of this book is that regulatory systems can be successfully reformed only if there are independent objective and public evaluations of their performance Just as one goes to a medical doctor for a regular health checkup it is clear that infrastructure regulation would also benefit from periodic checkups This book provides a general framework as well as detailed practical guidance on how to perform such regulatory checkups

Granting and Renegotiating Infrastructure Concessions J. Luis Guasch, 2004-01-01 During the 1990s infrastructure concessions were hailed as the solution to Latin America s endemic infrastructure deficit by combining private sector efficiency with rent dissipation brought about by competition This publication examines the design and implementation of over 1 000 examples of concession contracts in order to identify the problems that have occurred in the process It goes on to highlight lessons to be learned for the future in order to realise the potential benefits of infrastructure reform and to contribute to economic growth and poverty reduction

**Handbook of Key Global Financial Markets, Institutions, and Infrastructure** Gerard Caprio, Douglas W. Arner, Thorsten Beck, Charles W. Calomiris, Larry Neal, Nicolas Véron, 2012-11-27 This title begins its description of how we created a financially intergrated world by first examining the history of financial globalization from Roman practices and Ottoman finance to Chinese standards the beginnings of corporate practices and the advent of efforts to safeguard financial stability

**Privatization and Regulation of Transport Infrastructure** Antonio Estache, Ginés de Rus, 2000-01-01 The 1990s saw an increase in the liberalisation of transport policies and a strengthening of the role of private operators and investors in transport infrastructure worldwide The search for sustained improvement in efficiency is probably secondary to the need to find additional financing but it is improvement in services that is at the core of the new role of the government in transport Governments must now become fair economic regulators of many of the privately operated transport services and infrastructures This book examines the

major challenges that governments are likely to face in taking on their new role in transport      **Rethinking Infrastructure for Development** François Bourguignon, Boris Pleskovic, 2008 This book provides profiles of over 50 countries with 54 development indicators about people environment economy technology infrastructure trade and finance all in one handy pocket-sized volume A must have for anyone interested in today's development challenges in sub-Saharan Africa

**Regulatory Governance in Infrastructure Industries** Bernardo Mueller, 2006-01-01 This paper assesses and measures regulatory governance in 21 infrastructure regulators in Brazil Regulatory Governance is decomposed into four main attributes autonomy decision rules means and tools and accountability A ranking is proposed and the main areas for improvement identified A comparison of the proposed regulatory governance index and other indexes internationally available is performed Section 2 sets up the analytical framework for the report identifying key components of regulatory governance namely autonomy political and financial procedures for decision making tools and means including personnel and accountability Section 3 assesses each of these components in practice reporting the results of a survey with 21 regulatory agencies in Brazil which was designed and implemented in 2005 Section 4 measures regulatory governance based on three related indexes ranks the Brazilian regulators among themselves and compares the proposed indexes with other two indicators available in the literature Section 5 presents the conclusions      *Enhancing National Safeguards Infrastructure to Support the Introduction of Nuclear Power* IAEA, 2023-11-17 The decision to establish a nuclear power program is a significant undertaking by any country Such a decision should be based on a commitment by the government to use nuclear power safely securely and peacefully This commitment requires establishing a sustainable national infrastructure including robust safeguards infrastructure supporting the functions of the State system of accounting for and control of nuclear material SSAC The IAEA has developed the Milestones Approach to help Member States embarking on nuclear power to plan and develop the necessary infrastructure in a phased way Safeguards is one of the 19 infrastructure issues described in the Milestones Approach The primary objective of this publication is to provide guidance and references for safeguards related activities that need to be carried out during each of the three phases of nuclear power infrastructure development in line with the nuclear power program implementation This publication includes several case studies from different countries on how they developed their national safeguards infrastructure to meet the requirements of their nuclear power programs
