Charterparties Barış Soyer, Andrew Tettenborn, 2017-12-06 This book consists of edited versions of the papers delivered at the Institute of International Shipping and Trade Law's 12th International Colloquium at Swansea Law School in September 2016. Featuring a team of contributors at the top of their profession both in practice and academia, these papers have been carefully coordinated so as to ensure to give the reader a first class insight into the issues surrounding charterparties. The book is set out in three parts. Part I offers a detailed and critical analysis of issues of contemporary importance concerning time charters. Part 2 carries out a similar analysis with regard to voyage charterparties. Part 3 deliberates issues common to both types of charterparties. Offering critical analysis of contemporary legal issues on charterparty contracts, this book considers recent legal and practical developments and is therefore essential reading for both professional and academic readers with an interest in charterparties.

Digital Research Methods for Translation Studies Julie McDonough Dolmaya, 2023-12-22 Digital Research Methods for Translation Studies introduces digital humanities methods and tools to translation studies. This accessible book covers computer assisted approaches to data collection, data analysis and data visualization and presentation, offering authentic examples of these approaches in both translation studies research and projects from related fields. With a diverse range of examples featuring various contexts and language combinations to ensure relevance to a wide readership, this volume covers the strengths and limitations of computer assisted research methods as well as the ethical challenges specific to this kind of research. This is an essential text for advanced undergraduate and graduate translation studies students as well as researchers looking to adopt new research methods.

The Bulgarian Pension System: Caught Between Adequacy and Sustainability Mr. Jean-Jacques Hallaert, 2024-06-24 During the COVID 19 pandemic, the Bulgarian authorities increased pensions substantially to support pensioners' living standards and aggregate demand. These increases have become permanent and improved the adequacy of pensions. However, not matched by revenue measures, they have widened the deficit of the pension system. Reforms that increase the incentives to contribute to the pension system and thus revenue would improve the financial sustainability of the pension system and reduce fiscal risks.

Criminal Law Henry F. Fradella, Professor in and Associate Director of the School of Criminology and Criminal Justice Henry F Fradella, 2022-06-24 Criminal Law offers a unique hybrid approach to learning criminal law Most textbooks oversimplify the law by presenting the black letter law for major and defenses but they rarely present any corresponding exploration of the gray areas that exist beyond the basic rules of law Conversely casebooks present numerous edited judicial opinions often with context Criminal Law takes the best from each of these approaches by merging textual pedagogy and case analyses into a coherent framework

that includes legal history social context and public policy Taking a historical approach legal expert Henry F Fradella presents the law as it evolved from English common law and compares it with the modern statutory approach to crimes set forth in the American Law Institute s highly influential Model Penal Code After providing such comparative pedagogy for each crime or defense Criminal Law presents 1 2 edited cases that allow the reader to contrast how the black letter law plays out in the real world After each case a series of questions challenge students to engage in critical thinking about the case and its implications as precedent Finally chapters contain a number of additional pedagogical features that focus on public policy concerns and statutory interpretation skills using penal laws from a variety of U S states **Assessment and Multimodal**

Cancer cell reprogramming: Impact on carcinogenesis and cancer progression Ira Ida Skvortsova, Elvira V. Grigorieva, Simona Kranjc Brezar, Yue Zhao, 2023-03-24 [Binge Drinking in the Adolescent and Young Brain](#) Eduardo López-Caneda, Fernando Cadaveira, Salvatore Campanella, 2019-03-20

Binge drinking BD is a highly prevalent pattern in most Western countries characterized by the intake of large amounts of alcohol in a short time followed by periods of abstinence This abusive form of alcohol consumption is a regular practice in around a third of European and American youths The high prevalence of BD at this age is of particular concern since adolescence and youth are in a period of special vulnerability to neurotoxic effects of alcohol mainly due to the structural and functional changes going on in the brain throughout this key developmental stage Evidence gathered during the last decade from animal and human studies seems to point to multiple brain anomalies associated with BD In this Research Topic we have collated a compendium of articles that address multiple aspects of BD during adolescence and young adulthood such as identification prevalence gender differences and neurocognitive anomalies associated with this excessive alcohol consumption pattern These articles collectively highlight the breadth of current research conducted in this field but also the need to join efforts to improve the screening of the BD pattern the characterization of its consequences as well as the translation of knowledge acquired in the laboratory into clinical practice We remain confident that this Research Topic will contribute significantly to the understanding of BD and its consequences and will further stimulate high quality investigation in this relatively new research field
