Eugene Thomas, 1989-07-21 By borrowing from a wide range of disciplines such as psychology sociology anthropology psychiatry and the humanities this book gives a more human personal voice to the many experiences of aging The result is a new sort of social science research one which often reads more like literature than social science Indeed the author uses a wide variety of techniques borrowed from the humanities from hermeneutics to oral histories in addition to the more traditional social science methods

Inequalities of Aging Elana D Buch, 2018-08-28 Winner 2020 Eileen Basker Memorial Prize given by the Society for Medical Anthropology The troubling dynamic of the American home care industry where increased independence for the elderly conflicts with the well being of caregivers Paid home care is one of the fastest growing occupations in the United States and millions of Americans rely on these workers to help them remain at home as they grow older However the industry is rife with contradictions The United States spends a fortune on medical care yet devotes comparatively few resources on improving wages thus placing home care providers in the ranks of the working poor As a result the work that enables some older Americans to live independently generates profound social inequalities Inequalities of Aging explores the ways in which these inequalities play out on the ground as workers who are disproportionately women of color and immigrants earn poverty level wages and often struggle to provide for themselves and their families The ethnographic narrative reveals how two of the nation's most pressing concerns rising social inequality and caring for an aging population intersect to transform the lives of older adults home care workers and the world around them The book takes readers inside the homes and offices of people connected to two Chicago area home care agencies serving low income and affluent older adults respectively Through intimate portrayals of daily life Elana D Buch illustrates how diverse histories care practices and social policies overlap and contribute to social inequality Illuminating the lived experience of both workers and their clients Inequalities of Aging shows the different ways in which the idea of independence both connects and shapes the lives of the elderly and the working poor

Aging Gracelessly Tom Bennett, 2022-12-06 The Bible is arguably the greatest masterpiece of literature ever produced But what makes it great Who decides whether it is great accurate or valid Is one opinion or interpretation better than another These are questions that are best left to the experts right Aging Gracelessly is the culmination of an 18 month study by the author to read the Bible analyzing it from the perspective of a reluctant agnostic and hopefully find in it a much anticipated inner peace It is a genuine attempt to investigate the Good Book without the bias and influence of others The author delves into each book of the Bible and relates the experience with an unusual honesty and candor He is looking for peace and possibly salvation and like C S Lewis fully expects to get off his agnostic fence to join the two billion other Christian adherents who consider the Bible the ultimate handbook for the soul Along the way he discusses with himself many of the facets of our intangible existence things like good vs evil reality vs wishful thinking faith vs brainwashing and ignorance vs stupidity Aging Gracelessly raises as many questions as it addresses and it will make even the most vigorous believers among us think about what we believe
