The Political Animal in Medieval Philosophy Juhana Toivanen, 2020-10-12 In *The Political Animal in Medieval Philosophy* Juhana Toivanen investigates what medieval philosophers meant when they argued that human beings are political animals by nature. He analyses the notion of political animal from various perspectives and shows its relevance to philosophical discussions concerning the foundations of human sociability, ethics and politics. Medieval authors believed that social life stems from the biological and rational nature of human beings and that collaboration with other people promotes prosperity and good life. Toivanen provides a detailed philosophical interpretation of this view across a wide range of authors including unedited manuscript sources. As the first monograph length study on the topic, *The Political Animal* sheds new light on this significant period in western political thought.

The Satires Juvenal, 1999 Rooted in the traditional land owning class, Juvenal wrote brilliant and inflammatory satires on the decadent and corrupt Roman elite, a fact that resulted in him being exiled from Rome for many years.

The Roman Invasion of Britain Birgitta Hoffmann, 2013-08-21 The purpose of this book is to take what we think we know about the Roman Conquest of Britain from historical sources and compare it with the archaeological evidence, which is often contradictory. Archaeologists and historians all too often work in complete isolation from each other and this book hopes to show the dangers of neglecting either form of evidence. In the process, it challenges much received wisdom about the history of Roman Britain. Birgitta Hoffmann tackles the subject by taking a number of major events or episodes, such as Caesar's incursions, Claudius' invasion, Boudicca's revolt, presenting the accepted narrative as derived from historical sources and then presenting the archaeological evidence for the same. The result of this innovative approach is a book full of surprising and controversial conclusions that will appeal to the general reader as well as those studying or teaching courses on ancient history or archaeology.

Tacitus' History of Politically Effective Speech Ellen O'Gorman, 2020-09-03 This study examines how Tacitus' representation of speech determines the roles of speakers within the political sphere and explores the possibility of politically effective speech in the principate. It argues against the traditional scholarly view that Tacitus refuses to offer a positive view of senatorial power in the principate while senators did experience limitations and changes to what they could achieve in public life. They could aim to create a dimension of political power and efficacy through speeches intended to create and sustain relations which would in turn determine the roles played by both senators or an emperor. Ellen O'Gorman traces Tacitus' own charting of these modes of speech from flattery and aggression to advice, praise and censure and explores how different modes of speech in his histories should be evaluated, not according to how they conform to pre-existing political stances but as they engender different political worlds in the present and future. The volume goes beyond literary analysis of the texts to create a new framework for studying this essential period in ancient Roman history, much in the same way that Tacitus himself recasts the political authority and presence of senatorial speakers as narrative and historical analysis.

The Gallic War Julius Caesar, 1998-11-26 *The Gallic War* published on the eve of the civil war which led to the end of the Roman Republic is an autobiographical account written by one of the most famous figures of European history. On one level a straightforward narrative of the campaigns Caesar fought against the Gauls, Germans and Britons, it also serves a deeper political purpose, revealing him as a commander of breathtaking flair, courage and persistence: a man of the people, a man without rival. This new translation reflects the purity of Caesar's Latin while preserving the pace and flow of his momentous narrative of the conquest of Gaul and the first Roman invasions of Britain and Germany. The introduction includes a survey of Caesar's role and reputation in later thought while detailed notes, maps, a table of dates and glossary make this the most useful edition available.

Skates Made of Bone B.A. Thurber, 2020-03-05 Ice skates made from animal bones were used in Europe for millennia before metal-bladed skates were invented. Archaeological sites have yielded thousands of examples, some of them dating to the Bronze Age. They are often mentioned in popular books on the Vikings and sometimes appear in children's literature. Even after metal skates became the norm, people in rural areas continued to use bone skates into the early 1970s. Today, bone skates help scientists and re-enactors understand migrations and interactions among ancient peoples. This book explains how to make and use them and chronicles their history from their likely invention in the Eurasian steppes to their disappearance in the modern era.

Transforming the Sacred into Saintliness Wolfgang Palaver, 2021-02-04 Studies into religion and violence often put religion first. René Girard started with violence in his book *Violence and the Sacred* and used the Durkheimian term 'sacred' as its correlate in his study of early religions. During the unfolding of his theory, he more and more distinguished the sacred from saintliness to address the break that the biblical revelation represented in comparison to early religions. This distinction between the sacred and saintliness resembles Henri Bergson's complementing Émile Durkheim's identification of the sacred and society with a dynamic religion that relies on individual mystics. Girard's distinction also relates to the insights of thinkers like Jacques Maritain, Simone Weil, and Emmanuel Levinas. This element explores some of Girard's main features of saintliness. Girard pleaded for the transformation of the sacred into holy, not their separation.

Lives of the Caesars Suetonius, 2008-10-09 The *Lives of the Caesars* include the biographies of Julius Caesar and the eleven subsequent emperors.

Augustus Tiberius Gaius Caligula Claudius Nero Galba Otho Vitellius Vespasian Titus Domitian Suetonius composed his material from a variety of sources without much concern for their reliability His biographies consist the ancestry and career of each emperor in turn however his interest is not so much analytical or historical but anecdotal and salacious which gives rise to a lively and provocative succession of portraits The account of Julius Caesar does not simply mention his crossing of the Rubicon and his assassination but draws attention to his dark piercing eyes and attempts to conceal his baldness The Lives of Caligula presents a vivid picture of the emperor's grotesque appearance his waywardness and his insane cruelties The format and style of Suetonius Lives of the Caesars was to set the tone for biography throughout western literature his work remains thoroughly readable and full of interest ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

Upon a White Horse Peter Ross, 2025-09-11 I'm a card-carrying admirer of Peter Ross Robert Macfarlane The prehistoric sites of Britain and Ireland are places of wonder and wondering Who made these structures What did they mean to them And what do they mean to us now Bestselling author Peter Ross journeys from midwinter at Stonehenge to midsummer at Sycamore Gap Along the way he encounters bog bodies in Dublin a wooden goddess in Edinburgh and a chalk giant in Dorset He asks what it is like to live within the great stone circle at Avebury what rituals occurred in an Anglesey tomb and what draws volunteers to care for the Uffington White Horse These objects and structures speak of the long human story They offer the comfort of recognition and the pleasure of mystery There is something about ancient places that fills a hollow in our souls Upon a White Horse is a celebration of landscape and people and all that is beautiful strange and old PRAISE FOR STEEPLE CHASING A delicious treat Financial Times A charming odyssey The Times Lovely lyrical whimsical elegiac TLS Engaging New Statesman A wonderful book Daily Telegraph

The Romance of the Rose Guillaume (de Lorris), Jean (de Meun), 1999 The famous 13th century allegorical romance was begun by Guillaume de Lorris portraying the attempts of a courtier to woo his beloved and set in a symbolic walled garden The work was finished after Guillaume's death by Jean de Meun who expanded the work into an encyclopedic and often satirical commentary on the many forms of love and courtship
