To enhance and widen our knowledge of materials and to increase innovation and responsiveness to ever increasing international needs, more in-depth studies of functionally graded materials, tailor-made materials, recent advancements in manufacturing processes and new design philosophies are needed at present. The objective of this volume is to bring together experts from academic institutions, industries and research organizations and professional engineers for sharing of knowledge, expertise and experience in the emerging trends related to design, advanced materials processing and characterization and advanced manufacturing processes.

Integrating gender into implementation and monitoring and evaluation of cash transfer and public works programmes – FAO Technical Guide 3 Food and Agriculture Organization of the United Nations, 2018-11-01. Many social protection programmes including cash transfers, public works programmes and asset transfers target women as main beneficiaries or recipients of benefits. Extending social protection to rural populations has great potential for fostering rural women's economic empowerment. However, to tap into this potential, more needs to be done. There is much scope for making social protection policies and programmes more gender sensitive and for better aligning them with agricultural and rural development policies to help address gender inequalities. Recognizing this potential and capitalizing on existing evidence, FAO seeks to enhance the contribution of social protection to gender equality and women's empowerment by providing country-level support through capacity development, knowledge generation and programme support. To move forward this agenda, FAO has developed the Technical Guidance Toolkit on Gender-sensitive Social Protection Programmes to Combat Rural Poverty and Hunger. The Toolkit is designed to support SP and gender policy makers and practitioners in their efforts to systematically apply a gender lens to SP programmes in ways that are in line with global agreements and FAO commitments to expand inclusive SP systems for rural populations. The Toolkit focuses on the role of SP in reducing gendered social inequalities and rural poverty and hunger.

*Risk Management and Public Service Reform* Iniobong Enang, 2023-04-28. School education reform is a dynamic process. It takes place in the context of changing institutional structures including society, economy, politics, legislation and technology. Yet there can be poor awareness of risk, particularly social risk and its management during this process and more widely during public service reform (PSR). This book aims to promote new PSR understanding about social risk management. It utilizes in-depth case studies comprising two anonymous Scottish councils responsible for providing and reforming school education services. Drawing mainly on risk management and structuration theories with elements of complexity, leadership and institutional theories, the book explains contextual issues around the reform of Scottish school education services (SSES). It illustrates that social risks associated with reform can be used to explain emerging threats. Furthermore, it demonstrates that agent-structure duality may be instrumental to the production and management of social risks. The book also shows how the concept of social risk can be used to improve policy making and implementation. Targeted at practitioners, researchers, policymakers and students, this

book will be of interest to those in the fields of public administration public service management and risk management more generally     **Equity & Trusts Concentrate** Iain McDonald, Anne Street, 2013-01-10 Equity Trusts is a high quality revision guide which covers the key topics found on undergraduate courses A number of pedagogical features help with the preparation for exams and suggest ways to improve marks
