Laura Lowell, Carolyn Willard

Activities Preschool Worm Composting:

Environmental Awareness in Preschool Children's Drawings Mohamed Mliless, Mohammed Larouz, Diego Luis Forte, Huda Fadhil Halawachy, Handoko Handoko, Clara D.S. Vande-Guma, 2024-05-28 This edited volume investigates multiple perspectives of environmental meaning making among children by evaluating preschool children's drawings on the environment. It critically traces the formation of early attitudes towards the environment before children's exposure to formal environmental education. Similarities and differences are explored among preschool children's drawings across diverse cultural and geographic backgrounds. Over five sections covering Morocco, Indonesia, Nigeria, Iraq, and Argentina, each one examines the factors affecting children's environmental drawings such as age, gender, and geography. Using different theoretical frameworks, the chapters are written by researchers of environmental discourse and ecolinguistics with a background knowledge in environmental studies from a social science perspective. This book is of interest to researchers interested in ecolinguistics and socio-semiotics fields of study. This seminal book also paves the way for further research on preschool environmental education.

Early Childhood Curriculum for All Learners Ann M. Selmi, Raymond J. Gallagher, Eugenia R. Mora-Flores, 2014-08-12 *Early Childhood Curriculum for All Learners: Integrating Play and Literacy Activities* is designed to teach early childhood professionals about the latest research on play and early literacy and then to show them practical methods for adapting this research to everyday classroom practices that will encourage the development of learning skills. The authors link solid play-based research to specific developmentally appropriate practices. By combining these two areas, the text demonstrates that academic learning and play activities are highly compatible and that children can and do develop academic skills through play. In addition, the text focuses on socio-dramatic play, a recently acknowledged essential aspect of child-initiated play interactions. It provides specific strategies that link these interactive behaviors with the early academic skills needed for the initial primary grades. Implementation of the information presented in this book will enable children to experience a richer transition into primary education classrooms.

Anti-Bias Education in the Early Childhood Classroom Katie Kissinger, 2017-03-27 *Anti-Bias Education in the Early Childhood Classroom* provides a useful, clearly outlined guide for implementing anti-bias and anti-oppression practices in early childhood education settings. Throughout the book, you'll find stories from the field, strategies for keeping teaching practices in touch with growing social justice movements, tasks and questions to spark your professional growth in this important area. Katie Kissinger uses her personal experience as a longtime educator to highlight both the challenges and the potential for transformative learning in the anti-bias classroom and gives other teachers the tools they need to create classrooms that welcome all students and families.

Early Childhood Curriculum Claire McLachlan, Marilyn Fleer, Susan Edwards, 2018-03-30 The third edition of *Early Childhood Curriculum* provides a comprehensive and accessible introduction to curriculum theories and approaches in early childhood and early primary settings. Drawing on a cultural-historical framework for education, the text explores a

variety of approaches to learning and teaching and equips readers with the tools to effectively plan design and implement curriculum strategies Thoroughly revised and updated this edition features up to date coverage of national curriculum documents including the Early Years Learning Framework and Te Wh riki and expanded content on play based curriculum assessment and documentation Key domain areas of the curriculum are explored in depth and have been revised to include updated discussions of environmental factors digital knowledge and multiliteracies Each chapter is enriched with learning intentions definitions of key terms reflection points links to current curriculum documents and illustrative case studies to help readers connect theory to practice **Getting It Right From the Start** Marjorie J. Kostelnik, Marilyn L.

Grady, 2009-03-26 From understanding how the youngest children learn to working with ECE agencies this practical guide presents the information principals need to create effective early childhood education programs *Science and*

Mathematics in Early-childhood Education Donna M. Wolfinger, 1994 Environmental Education at the Early Childhood Level Ruth A. Wilson, 1994 The purpose of this publication is to establish a rationale for early childhood environmental education and to offer some guidelines and suggestions for planning and implementing developmentally appropriate environmental education programs for preschool children This monograph is divided into four major sections Part 1 outlines the rationale for early childhood environmental education and includes contributions from researchers both in the United States and the United Kingdom Part 2 presents philosophical and research perspectives relating to environmental education for preschool children It also outlines some of the major developmental characteristics of children during the early childhood years especially in relation to cognitive and moral development Part 3 provides specific guidelines and suggestions for developing and implementing environmental education programs at the early childhood level thus establishing a framework for quality in such programs Highlighted in Part 4 are existing programs offering environmental education for pre school children These programs include early childhood centers offering a nature based curriculum and environmental education centers offering preschool programs The final sections of this monograph offer information on efforts to establish international networking an annotated list of selected resources and biographical information on the contributors to the monograph JRH *Resources in Education* ,2001-10 **Young Children's Play and Environmental Education in Early**

Childhood Education Amy Cutter-Mackenzie, Susan Edwards, Deborah Moore, Wendy Boyd, 2014-01-18 In an era in which environmental education has been described as one of the most pressing educational concerns of our time further insights are needed to understand how best to approach the learning and teaching of environmental education in early childhood education In this book we address this concern by identifying two principles for using play based learning early childhood environmental education The principles we identify are the result of research conducted with teachers and children using different types of play based learning whilst engaged in environmental education Such play types connect with the historical use of play based learning in early childhood education as a basis for pedagogy In the book Beyond Quality in ECE and Care

authors Dahlberg Moss and Pence implore readers to ask critical questions about commonly held images of how young children come to construct themselves within social institutions In similar fashion this little book problematizes the taken for grantedness of the childhood development project in service to the certain cultural narratives Cutter Mackenzie Edwards Moore and Boyd challenge traditional conceptions of play based learning through the medium of environmental education This book signals a turning point in social thought grounded in a relational view of environmental education as experiential intergenerational interspecies embodied learning in the third space As Barad says such work is based in inter actions that can account for the tangled spaces of agencies Through the deceptive simplicity of children s play the book stimulates deliberation of the real purposes of pedagogy and of schooling Paul Hart University of Regina Canada [Terrarium Habitats](#) Kimi Hosoume, Jacqueline Barber, 2000 The guide includes concise and interesting biological information on a number of possible small organisms sow bugs isopods earthworms snails that can become terrarium inhabitants Students observe these and other terrarium components and record changes over time There are detailed instructions on setting up and maintaining the terrariums Special features include an optional soil profile test for older students and making decomposition bags to learn more about the natural life cycle **The Wild Path Home** Jacob Rodenburg, Cathy Dueck, 2025-09-02 On the pathway to stewardship and kinship an experiential approach to fostering environmental connection from birth to the teen years In a technologically saturated world how can we ignite the next generation s connection to their ecological and human communities Grounded in science based research and Indigenous wisdom The Wild Path Home offers an abundance of practical strategies for fostering respect reciprocity and responsibility empowering young people to become resilient passionate advocates for the planet This essential guide combines creative outdoor learning with supportive mentorship to create a powerful framework that can be adapted to any setting Award winning environmental educators Jacob Rodenburg and Cathy Dueck provide a simple accessible roadmap for nurturing future nature stewards at every stage of their development including A comprehensive list of key stewardship principles that are both timeless and universal 30 age appropriate actions or Landmarks designed to inspire activate and equip children and youth to create healthier communities and a vibrant more sustainable world Context background and relevant climate change connections along with a wealth of hands on activities to support each action From toddlers discovering the world through their senses to teens championing environmental and social justice while honing their leadership skills this engaging guide has something for everyone With its strong emphasis on the benefits of unstructured outdoor time The Wild Path Home is an antidote to the anxiety depression and alienation faced by many young people today Required reading for parents caregivers educators and community leaders **Preschool - Primary** Cynthia C. Jones Shoemaker, 2015-04-30 Good solid information is hard to get How hard is it for you to come up with ideas to boost learning for children at home Dont be taken in by expensive educational materials and toys that might not be up to date age appropriate or geared toward your childs learning style A childs most important first

teacher is the parent With our preschool primary and upper grades programs we involve the parents in the individual educational needs of their child or children Please take some time to review the materials and learn more about simple educational materials and tools that you can use with your children at home to boost their IQ and vocabulary This program only requires a few minutes each day too as often as you would like Growing & Learning Through Play Charles H. Wolfgang, Bea Mackender, Mary E. Wolfgang, 1981 *Sifting Through Science* Laura Lowell, Carolyn Willard, 2003 Young children enthusiastically investigate the properties of objects in this introduction to physical science In three open ended activities children explore materials that sink or float magnetic and non magnetic objects and a sand and bean mixture using tools that can sift and separate In the final activity children must apply what they ve learned to a garbage dump recycling challenge The Science Teacher ,1998 Some issues are accompanied by a CD ROM on a selected topic **Instructor** ,1981 *New Hampshire Audubon* ,1997 *EBOOK The Early Childhood Educator for Diploma* Lorraine Walker, 2022-05-30 Updated for the new CHC50121 qualification this new resource offers complete coverage of the 12 core units plus three of the most popular electives Content is user friendly and engaging with language appropriate for VET students Holistic case studies present practical applications of the chapter content helping students to apply chapter teachings to real word scenarios **Resources in Education** ,1995 *Child Care Design Guide* Anita Rui Olds, 2001 A Z s for designing superior day care facilities Virtually unknown 30 years ago daycare has become a growth industry Child Care Design Guide helps architects and designers plan design and renovate functional developmentally rich pleasing centers Author Anita Rui Olds brings to this work over 25 years of design experience with children s facilities She gives you step by step explanations of interior and exterior layout and design principles fleshed out in clarifying case studies You learn about licensing and code requirements operational standards and strategies and get helpful checklists charts and graphs for optimum facility design within time space and budgetary constraints This highly visual work features over 300 floor plans for infant and toddler preschool and afterschool spaces plus areas for outdoor play and more
