to your company's needs Handbook of Petroleum Processing David S. J. Jones, Peter R. Pujadó, 2006-01-11 This handbook describes and discusses the features that make up the petroleum refining industry. It begins with a description of the crude oils and their nature and continues with the saleable products from the refining processes with a review of the environmental impact. There is a complete overview of the processes that make up the refinery with a brief history of those processes. It also describes design technique operation and in the case of catalytic units the chemistry of the reaction routes. These discussions are supported by calculation procedures and examples sufficient to enable input to modern computer simulation packages.

Healthcare Hazard Control and Safety Management James T. Tweedy, 2005-06-24 Surpassing the standard set by the first edition, Healthcare Hazard Control and Safety Management Second Edition presents expansive coverage for healthcare professionals serving in safety, occupational health, hazard materials management, quality improvement, and risk management positions. Comprehensive in scope, the book covers all major issues. Information Resources in Toxicology P.J. Bert Hakkinen, Gerald Kennedy, Frederick W. Stoss, 2000-01-10 Information Resources in Toxicology Third Edition is a sourcebook for anyone who needs to know where to find toxicology information. It provides an up-to-date selective guide to a large variety of sources: books, journals, organizations, audiovisuals, internet, and electronic sources and more. For the Third Edition, the editors have selected, organized, and updated the most relevant information available. New information on grants and other funding opportunities, physical hazards, patent literature, and technical reports have also been added. This comprehensive time-saving tool is ideal for toxicologists, pharmacologists, drug companies, testing labs, libraries, poison control centers, physicians, legal and regulatory professionals, and chemists. Serves as an all-in-one resource for toxicology information. New edition includes information on publishers, grants, and other funding opportunities, physical hazards, patent literature, and technical reports. Updated to include the latest internet and electronic sources, e-mail addresses, etc. Provides valuable data about the new fields that have emerged within toxicological research, namely the biochemical, cellular, molecular, and genetic aspects.
