[Designing with Xilinx® FPGAs](#) Sanjay Churiwala,2016-10-20

This book helps readers to implement their designs on Xilinx FPGAs. The authors demonstrate how to get the greatest impact from using the Vivado Design Suite which delivers a SoC strength IP centric and system centric next generation development environment that has been built from the ground up to address the productivity bottlenecks in system level integration and implementation. This book is a hands on guide for both users who are new to FPGA designs as well as those currently using the legacy Xilinx tool set ISE but are now moving to Vivado. Throughout the presentation the authors focus on key concepts major mechanisms for design entry and methods to realize the most efficient implementation of the target design with the least number of iterations.

A picture can communicate a thousand words; this book gives new meaning to the phrase. *Introduction to Finite Element Analysis Using MATLAB and Abaqus* Amar Khennane, 2013-06-10. There are some books that target the theory of the finite element while others focus on the programming side of things. *Introduction to Finite Element Analysis Using MATLAB and Abaqus* accomplishes both. This book teaches the first principles of the finite element method. It presents the theory of the finite element method while maintaining a balance. *The Survey of Best Practices in Developing Online Information Literacy Tutorials* 06/2013 Primary Research Group, 2013. The Survey of Best Practices in Developing Online Information Literacy Tutorials is a benchmarking report for online tutorial development presenting a wealth of information on the practices involved in and the cost of developing online information literacy tutorials. The 285 page report also looks at how tutorials are marketed and accessed and at popular access points such as Facebook, the library website and others as well as how tutorials are used in for credit classes and more ad hoc use. The study looks at how tutorial designers are trained and at how they inter relate to non library departments and other departments of the library. The study also looks at the use of tutorials of other colleges and vendor produced tutorials and at efforts to evaluate how students use tutorials and how colleges should make decisions on what kinds of tutorials to produce and how to best produce them. The questionnaire for the report was largely developed by librarians at the University of Arizona libraries.
