Artificial Knowing Gender And The Thinking Machine:

Artificial Knowing Alison Adam, 1998 Alison Adam challenges the masculine slant in the Artificial Intelligence of the world in her book which re-enforces criticisms of the AI project Adam also shows how gender bias is programmed into AI based systems using theories based on feminism

Artificial Knowing Alison Adam, 1998 Artificial Knowing challenges the masculine slant in the Artificial Intelligence AI view of the world Alison Adam admirably fills the large gap in science and technology studies by showing us that gender bias is inscribed in AI based computer systems Her treatment of feminist epistemology focusing on the ideas of the knowing subject the nature of knowledge rationality and language are bound to make a significant and powerful contribution to AI studies Drawing from theories by Donna Haraway and Sherry Turkle and using tools of feminist epistemology Adam provides a sustained critique

Women, Work and Computerization Ellen Balka, Richard Smith, 2013-11-11 ELLENBALKKA Simon Fraser University ebalka Sfu ca 1 INTRODUCTION In developing the call for papers for the 7th International Federation of Information Processors IFIP Women Work and Computerization Conference we sought to cast our net widely We wanted to encourage presenters to think broadly about women work and computerization Towards this end the programme committee developed a call for papers that in its final form requested paper submissions around four related themes These are 1 Setting the Course Taking Stock of Where We Are and Where We re Going 2 Charting Undiscovered Terrain Creating Models Tools and Theories 3 Navigating the Unknown Sex Time Space and Place and 4 Taking the Helm Education and Pedagogy Our overall conference theme Charting a Course to the Future was inspired in part by Vancouver s geography which is both coastal and mountainous As such navigation plays an important part in the lives of many as we seek to enjoy our environs In addition as the first Women Work and Computerization conference of the new millennium we hoped to encourage the broad community of scholars that has made past Women Work and Computerization conferences a success to actively engage in imagining and working towards a better future for women in relation to computers The contributions to this volume are both a reflection of the hard work undertaken by many to improve the situation of women in relation to computerization and a testament to how much work is yet to be done

Feminist Vigilance Patty Sotirin, Victoria L. Bergvall, Diane L. Shoos, 2021-01-04 This collection advances vigilance as a critical feminist concept and strategy for addressing contemporary challenges The assembled chapters develop feminist vigilance by elaborating concrete examples that emphasize action ethics and hope Chapter authors expand on current feminist discussions about such issues as Black women s self care and anticipatory vigilance media portrayals of race gender and violence religion and social justice technofeminist activism postcolonial feminist critique research ethics and collective civic action The contributions engage with larger discussions of social precarity public anxiety post feminist appeals and future feminist trajectories Particular benefits of the collection include relatable content based in contemporary experiences insightful and pragmatic conceptions of vigilance from feminist perspectives and critical engagement with issues of

intersectionality agency embodiment and care ethics The collection aims to address the need for productive academic responses to contemporary challenges to gendered identities feminism and intersectional relations that avoid abstractions or overwhelmingly negative analyses Instead this collection invites readers to engage in feminist vigilance as a fresh perspective commitment and strategy *Feminist Philosophy and Emerging Technologies* Mary L. Edwards, S. Orestis Palermos, 2023-10-17 This volume explores urgent questions surrounding the bidirectional relationship between feminist philosophy and emerging technologies It underlines the exigency of feminist philosophical reflections on the design use and understanding of emerging technologies and at the same time accentuates how emerging technologies can uniquely impact the shape of future feminist critique and intervention While feminist philosophers have attended to problems posed by a few specific technologies that emerged in the previous century especially reproductive technologies broader philosophical questions concerning the challenges various new technologies present to feminism have yet to receive the sustained critical attention they deserve *Feminist Philosophy and Emerging Technologies* responds to this problem It is divided into two sections Section 1 provides theoretical considerations about the links between feminist philosophy and philosophy of technology broadly construed by developing against the background of emerging technologies methodological approaches and guidance for bringing those two fields of philosophical research together Section 2 is dedicated to analyses of specific emerging technologies and user trends their relation to extant structures of oppression and to bringing to the fore various ways in which a feminist philosophy of technology can impact the design of current and future technologies *Feminist Philosophy and Emerging Technologies* is an excellent resource for scholars and advanced students working in feminist philosophy philosophy of technology ethics political philosophy feminist theory gender and cultural studies and science and technology studies *Feminist AI* Jude Browne, Stephen Cave, Eleanor Drage, Kerry McInerney, 2023-10-22 *Feminist AI Critical Perspectives on Algorithms Data and Intelligent Machines* is the first volume to bring together leading feminist thinkers from across the disciplines to explore the impact of artificial intelligence AI and related data driven technologies on human society Recent years have seen both an explosion in AI systems and a corresponding rise in important critical analyses of these technologies Central to these analyses has been feminist scholarship which calls upon the AI sector to be accountable for designing and deploying AI in ways that further rather than undermine the pursuit of social justice This book aims to be a touchstone text for AI researchers concerned with the social impact of their systems as well as theorists students and educators in the field of gender and technology It demonstrates the importance of an intersectional understanding of the risks and benefits of AI approaching feminism as a political project that aims to challenge various interlocking forms of injustice social inequality and structural relations of power *Feminist AI* showcases the vital contributions of feminist scholarship to thinking about AI data and intelligent machines as well as laying the groundwork for future feminist scholarship on AI It brings together scholars from a variety of disciplinary backgrounds from computer

science software engineering and medical sciences to political theory anthropology and literature It provides an entry point for scholars of AI science and technology into the diversity of feminist approaches to AI and creates a rich dialogue between scholars and practitioners of AI to examine the powerful congruences and generative tensions between different feminist approaches to new and emerging technologies It features original and essential works specially selected to span multiple generations of practitioners and scholars These contributors are also attuned to conversations at industry level around the risks and possibilities that frame the drive to adopt AI This collection reflects the increasingly blurred divide between the academy industry and corporate research groups and brings interdisciplinary feminist insights together with postcolonial studies disability theory and critical race studies to confront ageism racism sexism ableism and class based oppressions in AI This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations **This**

Obscure Thing Called Transparency Emmanuel Alloa, 2022-03-31 The paradoxical logic of transparency and mediation Transparency is the metaphor of our time Whether in government or corporate governance finance technology health or the media it is ubiquitous today and there is hardly a current debate that does not call for more transparency But what does this word actually stand for and what are the consequences for the life of individuals Can knowledge from the arts and its play of visibility and invisibility tell us something about the paradoxical logics of transparency and mediation This *Obscure Thing Called Transparency* gathers contributions by international experts who critically assess the promises and perils of transparency today *Cracking the Bro Code* Coleen Carrigan, 2024-04-16 Why dominant racial and gender groups have preferential access to jobs in computing and how feminist labor activism in computing culture can transform the field into a force that serves democracy and social justice *Cracking the Bro Code* is a bold ethnographic study of sexism and racism in contemporary computing cultures theorized through the analytical frame of the Bro Code Drawing from feminist anthropology and STS Coleen Carrigan shares in this book the direct experiences of women nonbinary individuals and people of color including her own experiences in tech to show that computing has a serious cultural problem From senior leaders in the field to undergraduates in their first year of college participants consistently report how sexism and harassment manifest themselves in computing via values norms behaviors evaluations and policies While other STEM fields are making strides in recruiting retaining and respecting women workers computing fails year after year to do so Carrigan connects altruism computing race and gender to advance the theory that social purpose is an important factor to consider in working toward gender equity in computing Further she argues that transforming computing culture from hostile to welcoming has the potential to change not only who produces computing technology but also the core values of its production with possible impacts on social applications *Cracking the Bro Code* explains how digital bosses have come to operate imperiously in our society dodging taxes and oversight and how some programmers who look like them are enchanted with a sense of divine

right In the context of computing's powerful influence on the world Carrigan speculates on how the cultural mechanisms sustaining sexism harassment and technocracy in computing workspaces impact both those harmed by such violence as well as society at large

Chinese Women and the Cyberspace Khun Eng Kuah, 2008 This volume examines how Chinese women negotiate the Internet as a research tool and a strategy for the acquisition of information as well as for social networking purposes Offering insight into the complicated creation of a female Chinese cybercommunity Chinese Women and the Cyberspace discusses the impact of increasingly available Internet technology on the life and lifestyle of Chinese women examining larger issues of how women become both masters of their electronic domain and the objects of exploitation in a faceless online world

Gendered Choices Sue Jackson,Irene Malcolm,Kate Thomas,2011-03-02 This important book breaks new ground in addressing issues of gendered learning in different contexts across the adult life span at the start of the 21st century Adult learning sits within a shifting landscape of educational policy profoundly influenced by the skills agenda by complex funding policies new qualifications and the widening narrowing participation debate The book is unique in highlighting the centrality of gendered choices to these developments which shape participation in and experiences of lifelong learning Gendered Choices critically examines the continued expansion of a skills based approach in areas of lifelong learning including career decisions professional identities and informal networks It explores key intersections of adult learning from a gender perspective notably participation workplace learning and informal pathways Drawing on research from a range of contexts Gendered Choices demonstrates that for women the public private spaces of work and home are often conflated although the gendering of choice has largely been ignored by policy makers The themes of the book bring together some of these critical issues explored through the multiple and fractured identities which constitute gendered lives The book addresses these in an international context with contributions from Canada Spain and Iran that provide a wider international perspective on shared issues

Rewriting the Rules Ramona Vijayarasa,2026 Rewriting the Rules considers what law would look like if it were written with women in mind Examining both where the law stands today and the ground left to walk if it is to be truly equitable Ramona Vijayarasa takes readers on a global journey of gender responsive lawmaking across seven legal domains gender based violence shared parenting corporate board representation small scale mining budgeting modern slavery and artificial intelligence A legislative tour of good and bad practice from every continent this book affirms that law reform can make a gender equal world possible

The Gendered Cyborg Fiona Hovenden,Linda Janes,Gill Kirkup,Kathryn Woodward,2013-09-13 The Gendered Cyborg explores the relationship between representation technoscience and gender through the metaphor of the cyborg The contributors argue that the figure of the cyborg offers ways of thinking about the relationship between culture and technology people and machines which disrupt the power of

science to enforce the categories through which we think about being human male and female Taking inspiration from Donna Haraway's groundbreaking *Manifesto for Cyborgs* the articles consider how the cyborg has been used in cultural representation from reproductive technology to sci fi and question whether the cyborg is as powerful a symbol as is often claimed The different sections of the reader explore the construction of gender categories through science the interaction of technoscience and gender in contemporary science fiction film such as *Blade Runner* and the *Alien* series debates around modern reproductive technology such as ultrasound scans and IVF assessing their benefits and constraints for women issues relating to artificial intelligence and the internet

Realigning Research and Practice in Information Systems Development
 Nancy L. Russo, Brian Fitzgerald, Janice I. DeGross, 2013-06-29 Given the pervasive nature of information technology and information systems in the modern world the design and development of IS and IT are critical issues of concern New research topics continuously emerge in tandem with the latest developments in technology E Business Knowledge Management Business Process Reengineering for example However when the initial flurry of research abates and the gloss of these areas has diminished somewhat as it inevitably does the enduring core issue remains as to how to develop systems to fully exploit these new areas Both information systems and information technology are interpreted fairly broadly in this book Of particular interest to the editors were research studies that facilitate an understanding of the role and impact of information technology on society organizations and individuals and which strive to improve the design and use of information systems in that context The contributions to the book are categorized into four broad themes First is the core issue of developing information systems in the current environment In this section several fundamental challenges to current assumptions and conventional wisdom in information systems development are posed The second section considers the management of information systems Again the conventional wisdom is challenged The penultimate section focuses on researching information systems Here various issues to do with research methods are surfaced and the use of leading edge research methods in information systems development is pioneered and discussed Finally a section is devoted to understanding information systems This section addresses the perennial challenge in the IS field in relation to the conceptual foundations of the field This volume comprises the proceedings of the Working Conference on Realigning Research and Practice in Information Systems Development The Social and Organizational Perspective which was sponsored by the International Federation for Information Processing IFIP and held in Boise Idaho USA in July 2001 Given the central importance of information systems development in the current age this eclectic book which considers the topic from a rich and varied set of perspectives will be essential reading for researchers and practitioners working in all areas of IS and IT
