Americas Space Shuttle Nasa Astronaut Training Manuals Volume 4:

NASA's First Space Shuttle Astronaut Selection David J. Shayler, Colin Burgess, 2020-07-10 Unofficially they called themselves the TFNG or the Thirty Five New Guys Officially they were NASA's Group 8 astronauts selected in January 1978 to train for orbital missions aboard the Space Shuttle Prior to this time only pilots or scientists trained as pilots had been assigned to fly on America's spacecraft but with the advent of the innovative winged spacecraft the door was finally opened to non pilots including women and minorities In all 15 of those selected were categorised as Pilot Astronauts while the other 20 would train under the new designation of Mission Specialist Altogether the Group 8 astronauts would be launched on a total of 103 space missions some flying only once while others flew into orbit as many as five times Sadly four of their number would perish in the Challenger tragedy in January 1986 In their latest collaborative effort the authors bring to life the amazing story behind the selection of the first group of Space Shuttle astronauts examining their varied backgrounds and many accomplishments in a fresh and accessible way through deep research and revealing interviews Throughout its remarkable 30 year history as the workhorse of NASA's human spaceflight exploration twice halted through tragedy the Shuttle fleet performed with magnificence So too did these 35 men and women swept up in the dynamic thrust and ongoing development of America's Space Shuttle program This book on the Group 8 Astronauts the TFNGs is an excellent summation of the individuals first selected for the new Space Shuttle Program It provides insight into what it took to first get the Space Shuttle flying For any space enthusiast it is a must read Robert L Crippen PLT on STS 1 As a reader I had many moments where long lost memories of the triumph and tragedy of the space shuttle program were brilliantly reawakened at the turn of a page Loved it This is a must have book for every space enthusiast's library TFNG Mission Specialist Astronaut Richard Mike Mullane author of *Riding Rockets The Outrageous Tales of a Space Shuttle Astronaut* Many of the anecdotes in the book brought back memories of challenges opportunities and a team of men and women who were committed not just to the space program but to one another I've gone back to it several times as a reference source TFNG Steve Hawley 5 time Space Shuttle Mission Specialist Astronaut The TFNG book is incredible and amazingly thorough The detail in the book is awesome It is my go to book for any of the details I've forgotten TFNG Dr Rhea Seddon 3 time Space Shuttle Mission Specialist Astronaut I can't believe how detailed and complete it is FANTASTIC work TFNG Robert L Hoot Gibson 5 time Space Shuttle Pilot Commander and former Chief of the NASA Astronaut Office

NASA's Scientist-Astronauts Shayler David, Colin Burgess, 2007-09-19 Mounting pressure in the early 1960s from the National Academy of Sciences NAS to study ways of expanding the role of astronauts to conduct science on future space missions led to NASA's conclusion that flying scientifically trained crewmembers would generate greater returns from each mission NASA and industry studies continued investigating possibilities that could lead to the eventual creation of the first space stations using surplus Apollo hardware through the Apollo Applications Programme AAP There was also a growing interest within the military to create their own

manned space station programme conducting on orbit experiments and research with strategic advantages for national security In October 1964 the Soviets launched Voskhod 1 whose 3 man crew were identified as the first scientific passengers in space A few days later NASA and the NAS had completed joint studies into the possibility of using scientists in the manned space programme and invited scientists to apply for astronaut training In selecting the first group of scientist astronauts NASA had one firm requirement any person accepted into the programme would have to qualify as a military jet pilot While the second group of scientists were completing their academic survival and flight training programme the remaining members of the first scientist astronaut group were involved in supporting the developing Apollo Applications programme and the Apollo lunar programme

Greedy Science Michael D. Gordin,W. Patrick McCray,2025-02-18 The authors in this edited collection of essays explore this particular attribute greed by looking how it informed intersected and interlaced with science and technology and scientists and technologists during the 1980s During this decade greed although undeniably present in earlier eras became an extensive expansive and at times explicit characteristic of science both in the United States and around the world 3 The global scientific community was reshaped in a multitude of ways large and small by money fame and the pursuit of celebrity *NASA EP*.
