Resources in Education ,1986 StarBriefs 2001 ,2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions *Transformative Spaces* Billene Seyoum Woldeyes,2014 Transformative Spaces explores the principles of authentic leadership and how it can be developed among urban Ethiopian women to affect social change Set within a context that is not conducive to women s accelerated climb up the positional ladder the book argues that transformative spaces are powerful platforms enabling women to challenge cultural factors that impede their leadership potential Through a personal story of self transformation weaved in with other Ethiopian women s experiences with one such transformative space the Association of Women in Business AWiB the book proposes that such spaces are important in initiating self transformation Series Masters of Peace Vol 10 **Directions** ,1979 Daily Graphic J.K.
