Clymer, 2023-08-29 170 pages and more than 450 illustrations and charts size 8 25 x 10 75 inches This workshop manual is a
compilation of 4 original Honda publications It includes a reproduction of the original 250cc and 360cc twin cylinder 1974
factory workshop manual for both the disc brake and drum brake models plus 3 factory supplements that cover both the 5
and 6 speed variants which extends the coverage of the original manual through 1977 The models covered are CB250 CJ250T
CB360 CL360 CB360T and CJ360T Many of the earlier Honda motorcycle models were often introduced at different times
and in different countries using different model names or designations For example the CB 250 was predominantly sold in
the European market and not officially available in the USA However the 360cc models were available in both Europe and
the USA Unfortunately this often leads to difficulty in selecting the correct workshop manual and owners of this series of
250cc and 360cc twins are subjected to considerable confusion surrounding the appropriate selection from the multitude of
OEM publications that have recently flooded the on line marketplace This confusion is compounded by the fact that Honda
used both 5 and 6 speed transmissions within the 1974 to 1977 production run of the 250 360 series Owners of the 1968
1973 twin cylinder 5 speed 250cc and 350cc models are directed to our Honda factory workshop manual ISBN

was translated from Japanese into English Consequently some of the phrasing grammar punctuation and word usage may be
subtly different from that commonly used in the English language However the information as presented is readily
understandable In addition while we have done our best to identify any anomalies errors and incorrect spelling that may have
occurred during the original translation process we are certain that we will have missed one or two and we request your

350 1968 to 1973 Workshop Manual Floyd Clymer, 2022-03-16 162 pages and more than 450 illustrations and charts size
8 25 x 10 75 inches This publication is a reproduction of the original Honda factory Workshop manual This group of twin

cylinder Honda motorcycles began with the introduction of the 1959 to 1967 four speed 250cc CB72 and 305cc CB77 series. A workshop manual for these earlier models can be found under ISBN 9781588500731. The models covered in this manual are the twin cylinder 1968 to 1973 five speed CB250 K0 K5 CL250 K0 K2 and the CB350 K0 K4 CL350 K0 K5 and SL350 K0 K2. Also included are the front disc brake CB250G and CB350G models. Beginning in 1968 and extending through the 1975 model year the K suffix often but not always changed on an annual basis. K0 was used to indicate the first model in the series with updated versions identified as K1 K2 K3 etc. While the K number designations continued in use outside the USA through 1978 in September 1973 American Honda adopted a year identifier within the model number for example a CT70 76 would be a 1976 model. Therefore while the use of the letter K suffix has become accepted practice to identify the progression of a particular model by year of production it can at times be misleading. For example Honda occasionally identifies the 1968 models in the CB250 350 series as the CB250 CB350 without the use of the K0 suffix and sometimes bypasses the use of K1 for the 1969 models and jumps to K2 for the 1970 models. Setting this potential for confusion aside and reverting to what has become generally accepted usage of the K suffix we can state that this manual covers the five speed K0 K1 K2 K3 K4 K5 and disc brake models of the CB250 CB350 and their variants from 1968 through 1973. Finally please note that the text in the original Honda Factory Workshop Manual was translated from Japanese into English. Consequently some of the phrasing grammar punctuation and word usage may be subtly different from that commonly used in the English language. However the information as presented is readily understandable. In addition while we have done our best to identify any anomalies and errors that may have occurred during the original translation process we are certain that we will have missed one or two and we request your indulgence in ignoring them.

Honda 1971-1978 Workshop Manual 4-Cylinder Cb500, Cb550 & Cb550f Super Sport Floyd Clymer, 2023-05-24 194 pages and more than 500 illustrations and charts size 8 25 x 10 75 inches. This Workshop Manual is a compilation of various Honda Factory Manuals for the three variants of the 500cc and 550cc four cylinder models manufactured from 1971 through 1978. The original CB500 released in 1971 ultimately morphed into the 1974 CB550 and the 1975 CB550F Super Sport. The original base 500cc manual was expanded by the factory to include the CB550 and subsequently updated with supplements for the later models. It covers the 1971 1973 K0 K1 a CB550 76 would be a 1976 USA model but in most other countries that same model would be identified as a CB550K2. Setting this potential for confusion aside we can state that this manual covers the entire 1971 through 1978 range of 500cc and 550 cc four cylinder models. After his visit to Japan in 1961 Floyd Clymer published The Complete Catalog of Japanese Motor Vehicles ISBN 9781588502209. Based on his experiences during that visit Floyd also anticipated the need for repair manuals for those Japanese motorcycles that were just starting to be imported into the USA. Yamaha 1958 Honda 1959 Suzuki 1963. The predominance of the Floyd Clymer Japanese motorcycle manuals were either reprints or compilations of the factory publications which today makes them more desirable than the current aftermarket manuals.
