Hannigan, Bernadette Walker-Gibbs, Emma Charlton, 2019-04-25 This book brings together researchers from different fields traditions and perspectives to examine the ways in which place and space might be unsettled Researchers from across the humanities and social sciences have been drawn to the study of place and space since the 1970s and the term unsettled has been an occasional but recurring presence in this body of scholarship Though it has been used to invoke a range of meanings from the dangerous to the liberating the term itself has rarely been at the centre of sustained examination This collection

highlights the idea of the unsettled in the scholarly investigation of place and space The respective chapters offer a dialogue between a diverse and eclectic group of researchers crossing significant disciplinary and interdisciplinary boundaries in the process The purpose of the collection is to juxtapose a range of different approaches to and perspectives on the unsettling of place and space In doing so *Interdisciplinary Unsettlings of Place and Space* makes an important contribution and offers new insights into how scholarship and research into different fields and practices may help us re envision place and space
