Political Mind Greg Power, 2024-02-15 Why have efforts to strengthen quality of governance so often failed in some of the world's most troubled states Because they almost always ignore the human side of politics Drawing on his experience of working with hundreds of politicians in more than sixty countries Greg Power explores how social norms public expectations and the personal interests of MPs influence the path of political development Where states are weak politicians solve problems by going around the state From Tanzania and Nepal to Iraq and Ukraine voters actually want MPs who can find informal fixes and a reciprocal logic holds the system in place But this also means that weak institutions tend to stay weak Combining insights from behavioural economics change management and comparative politics this fascinating book argues for a different approach to political reform one concerned less with institutional design and more with the existing logic of human behaviour One that starts inside the political mind and works outwards from there Legislative Development in

Africa Ken Ochieng' Opalo, 2019-06-20 Examined the development of legislatures under colonial rule post colonial autocratic single party rule and multi party politics in Africa *Clients and Constituents* Jennifer Bussell, 2019-05-01 This book provides a theoretical and empirical examination of constituency service in developing countries The predominant view of distributive politics in patronage democracies emphasizes the partisan targeting of pork and clientelism In contrast this book demonstrates that high level legislators in India and other contexts often provide direct non partisan assistance to individual constituents **Activist Origins of Political Ambition** Keith Weghorst, 2022-07-21 Why do people run for office with

opposition parties in electoral authoritarian regimes where the risks of running are high and the chances of victory are bleak In *Activist Origins of Political Ambition* Keith Weghorst offers a theory that candidacy decisions are set in motion in early life events and that civic activism experiences and careers in civil society organizations funnel aspirants towards opposition candidacy in electoral authoritarian regimes The book also adapts existing explanations of candidacy decisions derived from leading democracies that can be applied to electoral authoritarian contexts The mixed methods research design features an in depth study of Tanzania using original survey data sequence methods archival research and qualitative data combined

Wolchik,Jane Leftwich Curry,2018-03-29 Now in a fully updated edition this essential text explores the other half of Europe the new and future members of the EU along with the problems and potential they bring to the region and to the world stage Clear and comprehensive it offers an authoritative analysis of Central and Eastern Europe the Baltics and Ukraine **Inequality and Political Cleavage in Africa** Catherine Boone,2024-04-25 Extensive data maps and case histories show how competition between rich and poor regions drives African politics not ethnic diversity

Sidman, 2019-08-06 Conventional wisdom holds that legislators who bring pork federal funds for local projects back home to their districts are better able to fend off potential challengers For more than four decades however the empirical support for this belief has been mixed Some studies have found that securing federal spending has no electoral effects at best or can even cost incumbent legislators votes In *Pork Barrel Politics* Andrew H Sidman offers a systematic explanation for how political polarization affects the electoral influence of district level federal spending He argues that the average voter sees the pork barrel as an aspect of the larger issue of government spending determined by partisanship and ideology It is only when the political world becomes more divided over everything else that the average voter pays attention to pork linking it to their general preferences over government spending Using data on pork barrel spending from 1986 through 2012 and public works spending since 1876 along with analyses of district level outcomes and incumbent success Sidman demonstrates the rising power of polarization in United States elections During periods of low polarization pork barrel spending has little impact but when polarization is high it affects primary competition campaign spending and vote share in general elections *Pork Barrel Politics* is an empirically rich account of the surprising repercussions of bringing pork
