Kakavipure,2022-10-11 The natural world is shared by all organisms and must be protected Worldwide environmental problems including growing temperatures ozone depletion shrinking forests dwindling energy sources dwindling biodiversity and so on affect everyone Natural and anthropogenic environmental processes are both studied and understood by environmental scientists Students gain and hone valuable skills like critical thinking problem solving and creativity as they investigate and analyse intricate environmental challenges One of

the main reasons why learning about the environment is crucial on a global scale is because environmental scientists use research inquiry and modelling to advance hypotheses about the causes and consequences of environmental phenomena. Environmental science is concerned with the investigation of pollution and degradation of the natural world including the study of the processes that pollute water, land, air, soil, and living things. We can use it as a benchmark for a natural environment that is free from danger and in good health. iv Safe drinking water, clean living circumstances, pure air, fertile land, nutritious food, and progress are all topics covered. Dimensions of environmental protection management such as sustainable environmental law, environmental management, environmental protection, and environmental engineering are growing.

This is a book for teachers and people who help teachers such as writers and editors of curriculum materials. It applies to all kinds of teaching, secular and religious, by both professionals and volunteers. It tells how to plan and how to evaluate results. The book has some interesting and helpful features. It is designed for effective self-study but it is equally usable in class situations. The reader is guided through a careful step-by-step process that provides frequent check points to verify and reinforce learning. Cartoon-style pictures present concepts visually, adding a refreshingly light touch. Content is serious but presentation is concise and clear.
