Started in January 2009, the project soon became a viral online sensation. It was gradually expanded to contain more than 40 stereotype maps which the author describes as cartographic caricatures ridiculing the worst excesses of human bigotry and narrow mindedness. The essays that accompany them narrate the story of the project and contemplate humanity's affair with prejudice since the dawn of civilization. They offer an even deeper but equally hilarious perspective on our inherent tendency to randomly blame people simply because someone convinced us that they ate our breakfast. According to this book, the first domesticated animal was not the dog but the scapegoat. The razor sharp irony of the author will guide you through the delusions of the ancient civilizations of Greece and China, reveal the stupefying amalgam of superstition and paranoia of the Middle Ages, and it will leave you begging for more with a grotesquely hilarious prediction about the future of Europe. Satire and cartography rarely come in a single package but in the Atlas of Prejudice they successfully blend to produce a book that is shockingly funny and disturbingly thought provoking all at the same time.

Atlas of Prejudice Yanko Tsvetkov, 2016-10-04 More than a hundred stereotype maps glazed with exquisite human prejudice especially collected for you by Yanko Tsvetkov, author of the viral Mapping Stereotypes project. Satire and cartography rarely come in a single package but in the Atlas of Prejudice they successfully blend in a work of art that is both funny and thought provoking. A reliable weapon against bigots of all kinds, it serves as an inexhaustible source of much needed argumentation and occasionally as a nice slab of paper that can be used to smack them across the face whenever reasoning becomes utterly impossible. This second edition packs the most extensive collection of Tsvetkov's maps to date in a single book suitable for all ages, genders, and races.
