Describe the following propagation methods of air layering, tissue culture, stem cuttings, leaf cuttings, root cuttings, & seeds. -Answer- Air layering is a method of propagating new trees and shrubs from stems still attached to the parent plant. The stem is wrapped with damp moss to encourage roots to form.

Plant tissue culture is a collection of techniques used to maintain or grow plant cells, tissues or organs under sterile conditions on a nutrient culture medium of known composition. It is widely used to produce clones of a plant in a method known as micropropagation.

Stem cuttings: It involves taking a section of stem from a parent plant and manipulating it to create a new plant.

leaf cuttings: stem cutting produces new roots, and a root cutting produces new stems

root cuttings: the portion of root is cut from a parent plant (often called a mother plant), placed in a growing medium, and then left to grow its own system of roots and stems.

seeds: is the method of plant propagation (multiplying, reproducing, or breeding new plants) that is done through the use of seeds.

Building on the previous two versions of Avionics Test Certification Test Study this book continues with a new name and
more material This book has all of the same 34 review subject areas that the original book had but now has more specific
study information based on exit interviews of technicians who passed the test This includes more targeted information about
wave generation circuits mechanical to electrical schematic reading and the principles of electronic voltage regulation In one
place you will have a clear understanding of what subjects and to what level the test is given I still combine all of the FAA
and other government and military sources into a single study guide to prepare you for the unpublished test questions The
companion worksheet book is still available through my website and when I teach at locations all around the country and it to
will include questions about the new material on the test This book provides information about how the NCATT AET rating
has been accepted as a worldwide accreditation through ASTM International This makes obtaining your Avionics
Certification and the associated add on ratings more valuable to potential employers By having this certification standard
recognized by a large worldwide organization the opportunities that can be opened to a technician are boundless With this
book I also will provide a forum for students to voice their concerns and provide feedback about the subjects in the books
