

President John F. Kennedy's Inaugural Address: A Rhetorical Analysis

4 pages | 840 words

On a winter Friday in 1963, our nation mourned the tragic assassination of President John Fitzgerald Kennedy, a man whose legacy is etched in the annals of American history. Beyond the somber end to his life, President Kennedy's enduring impact lies in his remarkable contributions to the nation, notably exemplified in his powerful Inaugural Speech delivered in January 1961. This essay delves into the rhetorical brilliance of Kennedy's address, exploring its emotional resonance, logical persuasiveness, and ethical foundation.

The Emotional Power of Pathos

President Kennedy's inaugural address was a masterclass in the art of pathos, skillfully connecting with the emotions of his diverse audience. Early in his speech, he evokes empathy by acknowledging the struggles of people worldwide, stating, "peoples in the huts and villages across the globe struggling to break the bonds of mass misery" (3). This poignant appeal to the American sense of compassion lays the foundation for a broader connection between the United States and those less fortunate nations.

Moreover, Kennedy taps into the patriotic fervor that often surfaces during elections, rallying the American spirit with the declaration, "let every other power know that this Hemisphere intends to remain the master of its own house" (3). By emphasizing unity and national pride, Kennedy effectively stirs the emotions of his audience, aligning them with the collective goal of maintaining American dominance.

Expanding on the emotional dimension, Kennedy's use of pathos extends to his vision for a compassionate and interconnected world. He asserts, "(if) a free society cannot help the many who are poor, it cannot save the few who are rich" (3), creating a moral imperative for the United States to extend its hand to those in need. This appeal not only tugs at the heartstrings of the audience but also establishes a moral high ground for the nation under Kennedy's leadership.

The Rational Persuasion of Logos

While pathos dominates Kennedy's rhetorical arsenal, he also makes strategic forays into logos, appealing to the audience's sense of reason. Addressing the economic concerns of the arms race, a prevailing fear at the time, Kennedy argues that pursuing peace is imperative "before the dark powers of destruction unleashed by science engulf all humanity" (3). Though a somewhat weak appeal to logic given the known destructive capabilities of nuclear weapons, this statement strategically combines elements of both logos and pathos, subtly invoking the fear of annihilation to underscore the urgency of peace.

Later in the speech, Kennedy reinforces the logical foundation of his presidency by emphasizing the country's role in defending freedom. Asserting that "only a few generations have been granted the role of defending freedom in its hour of maximum danger," he underscores the gravity of the responsibility bestowed upon the United States (6). This robust appeal to logos serves to rationalize and legitimize the overarching goal of preserving freedom.

Expanding on the logical appeal, Kennedy addresses the global challenges of the time with a clear sense of strategy. He notes, "...yet the same revolutionary beliefs for which our forebears fought are still at issue around the globe" (2), drawing a historical parallel to emphasize the timeless nature of the struggle...
