Law Of Evidence In Nigeria Practice And Procedure Simon Uchenna Ortuanya, 2025-03-21 The Evidence Act 2011 repealed the old Evidence Act. In doing so, the new Act introduced some changes in the Law of Evidence. Ever since there has been an urgent need for scholastic guidance in the proper approach to the interpretation of the provisions embodying those changes. This is particularly so as the courts have been issuing contradictory interpretations of these provisions. In his new book *Law of Evidence in Nigeria Practice and Procedure*, the veteran author and urbane man of letters, Professor Simon Uchenna Ortuanya, masterfully plumbs the intention of the drafters of the Act. The result is a five hundred and forty page treatise of redoubtable erudition. The succinct titles of the different chapters are quite captivating, just as the logical presentations of ideas are very illuminating. The book bears the imprints of the erudite author's versatility in the Law of Evidence, a course he has taught admirably in two public universities, years. Judges and Justices, Senior Advocates of Nigeria, Law Professors and sundry litigation lawyers should be truly enamoured of the enormous efforts here. Upon my intimate perusal of this excellent book, I am under obligation to commend it to all Justices of our appellate courts, Judges of disparate categories, law teachers and their students, and to one and all. The book Lady Astronauts Lady Engineers and Naked Ladies is a gender history of the American space community and by extension a social history of American society in the twentieth century during the Cold War In order to expand and differentiate the prevalent postwar narrative about gender relations and cultural structures in the United States the book analyzes several different groups of women interacting in different social spaces within the space community It therewith grants insight into the several layers of female participation and agency in the community and the gender and race based

obstacles and hurdles the female prospective astronauts scientists engineers artists administrators writers hostesses secretaries and wives were faced with at NASA and in the space industry In each chapter a different social space within the space community is analyzed The spaces where the women lived and worked are researched from a media individual and institutional angle ultimately revealing the differing gender philosophies communicated in the public sphere and the space community workplaces by government and space community officials While women were publicly encouraged to participate in the American space effort to beat the Soviet Union in the race to the moon women had to deal with gender based barriers which were integral to the structures of the space community just as they were an intrinsic component of all societal structures in the United States in the 1960s The female space workers who were often perceived as disrupters of the prevalent social order in the space community and discriminated by some of their male colleagues and bosses on a personal basis still managed to assert themselves They molded pockets of agency in the space community workspaces without the facilitation of regulations on the part of NASA that might have provided them with easier access or more agency Thus the space community a place of technological innovation was not necessarily also a place of social innovation but a community with a government agency at its center that mainly mirrored the current changing social order conventions and policies in the 1960s as well as in the 1970s and 1980s Nevertheless the women presented in this book were instrumental in advancing and consolidating the social transformation that happened within the space community and the United States and therefore make intriguing subjects of research Thus this systematic analysis of the connection between gender space and the Cold War adds a new dimension to space history as well as expands the discourse in American history about gender relations and the opportunities of women in the twentieth century
