Independent Schools Yearbook 2012-2013 none,2013-06-20 The highly respected book of reference of sought after Independent Schools in membership of the Independent Schools Council s Associations HMC GSA The Society of Heads IAPS ISA and COBIS **Federal Register** ,2013-12 Implementation of Welfare Reform by Local Authorities Great Britain: Parliament: House of Commons: Communities and Local Government Committee,2013-04-03 The significance timetable and volume of the proposed welfare reforms should not be underestimated The changes will see Housing Benefit currently administered by local authorities transferring into Universal Credit UC to be administered by the Department for Work and Pensions DWP Moving in the other direction Council Tax Benefit and parts of the Social Fund will be replaced with schemes designed and administered by local authorities This report focuses on implementation and the part that local authorities are playing It identifies four key areas that will be crucial to the successful implementation of the changes First these reforms require close interdepartmental working particularly between the Department for Communities and Local Government and DWP Second the Government needs to work with the Local Government Association to assess the cumulative impact of the entire programme on local authorities resources Third for the simplification of benefits the Government is switching the payment of housing support from the landlord directly to the claimant Housing associations may therefore face increased rent arrears and collection costs though the Government has agreed that this may be offset by excluding vulnerable tenants and an automatic switchback mechanism paying rent to the landlord when a tenant s arrears hit a threshold level In addition it is vital that DWP makes good on its assurances that the financial viability of housing associations will not be damaged by the welfare reforms Fourth there are concerns about the readiness of ICT systems specifically that the systems for fraud detection within UC were still at early development even though implementation is now advanced Accounting and Auditing in China Mark A. Chen,2015-05-28 Complete proceedings of the 5th International Conference on IS Management and Evaluation Shaanxi China Published by Academic Conferences and Publishing International Limited House of Commons - Committee of Public Accounts: BBC Severance Packages - HC 476 Great Britain: Parliament: House of Commons: Committee of Public Accounts,2013-12-16 In the three years to December 2012 the BBC gave 150 senior managers severance payments totalling 25 million The BBC paid more salary in lieu of notice than it was obliged to in 22 of the 150 severance payments for senior managers in the three years to December 2012 at a cost of 1.4 million It is unacceptable for the BBC or any other public body to give departing senior managers huge severance payments that far exceed their contractual entitlements Some of the justifications put forward by the BBC were extraordinary The Committee welcomes the changes that the BBC s Director General Lord Hall has made to cap severance pay Recommendations include the BBC should remind its staff that they are all individually responsible for protecting public money and challenging wasteful practices to protect licence fee payers interests and its own reputation the BBC should establish internal procedures that provide clear central oversight and effective scrutiny of severance payments the BBC Executive and the BBC Trust need to overhaul the way they conduct their business and record and communicate decisions properly the BBC Trust should be more willing to challenge practices and decisions where there is a risk that the interests of licence fee payers could be compromised the BBC Trust and the BBC Executive need to ensure that decision making is transparent and accountability taken seriously based on a shared understanding of value for money with tangible evidence of individuals taking public responsibility for their decisions *Law and Corporate Behaviour* Christopher Hodges,2015-10-22 This book examines the theories and practice of how to control corporate behaviour through legal techniques The principal theories examined are deterrence economic rational acting responsive regulation and the findings of behavioural psychology Leading examples of the various approaches are given in order to illustrate the models private enforcement of law through litigation in the USA public enforcement of competition law by the European Commission and the recent reform of policies on public enforcement of regulatory law in the United Kingdom Noting that behavioural psychology has as yet had only limited

application in legal and regulatory theory the book then analyses various European regulatory structures where behavioural techniques can be seen or could be applied Sectors examined include financial services civil aviation pharmaceuticals and workplace health safety Key findings are that enforcement has to focus on identifying the causes of non compliance so as to be able to support improved performance rather than be based on fear motivating complete compliance Systems in which reporting is essential for safety only function with a no blame culture The book concludes by proposing an holistic model for maximising compliance within large organisations combining public regulatory and criminal controls with internal corporate systems and external influences by stakeholders held together by a unified core of ethical principles Hence the book proposes a new theory of ethical regulation This title is included in Bloomsbury Professional's International Arbitration online service

Norm Antipreneurs and the Politics of Resistance to Global Normative Change Alan Bloomfield, Shirley V. Scott, 2016-10-04 Over recent decades International Relations scholars have investigated norm dynamics processes at some length with the norm entrepreneur concept having become a common reference point in the literature The focus on norm entrepreneurs has however resulted in a bias towards investigating the agents and processes of successful normative change This book challenges this inherent bias by explicitly focusing on those who resist normative change norm antipreneurs The utility of the norm antipreneur concept is explored through a series of case studies encompassing a range of issue areas and contributed by a mix of well known and emergent scholars of norm dynamics In examining the complexity of norm resistance particular attention is paid to the nature and intent of the actors involved in norm contestation the sites and processes of resistance the strategies and tactics antipreneurs deploy to defend the values and interests they perceive to be threatened by the entrepreneurs and whether it is the entrepreneurs or the

antipreneurs who enjoy greater inherent advantages This text will therefore be of interest to scholars and students of International Relations International Law Political Science Sociology and History The Times Index, 2013-07 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement Microeconomics R.
