Romero,2013-10-01 The general theme of MEDICON 2013 is Research and Development of Technology for Sustainable
Healthcare This decade is being characterized by the appearance and use of emergent technologies under development This
situation has produced a tremendous impact on Medicine and Biology from which it is expected an unparalleled evolution in
these disciplines towards novel concept and practices The consequence will be a significant improvement in health care and
well fare i e the shift from a reactive medicine to a preventive medicine This shift implies that the citizen will play an
important role in the healthcare delivery process what requires a comprehensive and personalized assistance In this context
society will meet emerging media incorporated to all objects capable of providing a seamless adaptive anticipatory
unobtrusive and pervasive assistance The challenge will be to remove current barriers related to the lack of knowledge
required to produce new opportunities for all the society while new paradigms are created for this inclusive society to be
socially and economically sustainable and respectful with the environment In this way these proceedings focus on the
convergence of biomedical engineering topics ranging from formalized theory through experimental science and
technological development to practical clinical applications Management and Leadership for Nurse Administrators Linda
