Assemblies and Representation in Languedoc in the Thirteenth Century Thomas N. Bisson, 2015-12-08 The author demonstrates that medieval assemblies have a significant history well before the great age of parliaments and Estates He deals with assemblies council and consent and shows how the older procedures were transformed by the increasingly bureaucratic Capetian governments after the royal conquest of Languedoc in the 13th century Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The World of the Troubadours Linda M. Paterson, 1995-10-05 Occitania known today as the south of France had its own language and culture in the Middle Ages Its troubadours created courtly love and a new poetic language in the vernacular which were to influence European literature for centuries There are many books on the troubadours but this is the first comprehensive study of the society in which they lived For readers of literature it offers a wide ranging insight into the realities that lay behind the poetic mystique For historians it opens up an important and Absolutism and Society in Seventeenth-Century France William Beik, 1985 This neglected area of medieval Europe analysis of the provincial reality of absolutism argues that the relationship between the regional aristocracy and the crown was a key factor in influencing the traditional social system of seventeenth century France Heresy, Crusade, and Inquisition in Southern France, 1100 - 1250 Walter L. Wakefield, 2023-11-15 Heresy Crusade and Inquisition in Southern France 1100 1250 examines the rise of heresy in the Languedoc region the Albigensian Crusade and the early years of the Inquisition focusing on the social and religious dynamics that shaped this turbulent period Initially conceived as an introduction to William Pelhisson's chronicle a key firsthand account of the Inquisition in Toulouse the project expanded into a broader historical study incorporating Pelhisson's work and other primary documents as appendices Drawing on the foundational research of scholars like Herbert Grundmann Antoine Dondaine and Yves Dossat the book provides an accessible synthesis for English speaking readers blending analysis of dissent suppression and institutional authority with translations of key texts While rooted in medieval events the book highlights enduring themes of ideological conflict and authority offering insights valuable to both scholars and general readers This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 Violence and the State in Languedoc, 1250-1400 Justine Firnhaber-Baker, 2014-04-24 A reconsideration of aristocratic violence

Louis IX and the Challenge of the Crusade William Chester Jordan, 2015-03-08 Louis IX has long been known both as a saintly crusader and as the founder of effective royal administration in France But in spite of a vast amount of research the details of what happened under his rule and why it happened have been little understood Synthesizing this research from a thematic perspective William Chester Jordan integrates the various facets of the king's reign from 1226 to 1270 to show how the monarch's reforms were inextricably connected with his crusades Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Curia and Cortes in León and Castile 1072-1295 Evelyn S. Procter, 1980-07-31 Analyses the composition and function of the curia regis assemblies in Le n and Castile in and around the twelfth century Ideology and Royal Power in Medieval France William Chester Jordan, 2024-10-28 Ideology and Royal Power is a collection of essays describing and assessing the ways in which royal publicists in medieval France conceived the authority of the crown especially with regard to protecting and defending its Christian subjects from their alleged enemies at home and abroad corrupt officials Jews particularly moneylenders heretics and Muslims A number of the essays also describe the execution of royal policies with respect to these groups and evaluate their impact both in terms of the groups affected and their influence on further developments in royal ideology A key figure is that of Louis IX Saint Louis r 1226 1270 The Letters of Edward I Kathleen B. Neal, 2021 Detailed examination of the letters of Edward I reveals them to be powerful and sophisticated political tools Highly commended for the Royal Studies Journal Book Prize 2022 As formulaic in appearance as they are abundant in

the archives it is easy to underestimate the power of the letters generated by medieval governments but these acts of communication were more than mere containers of information Operating at the intersection of the spoken and the written the performed and the observed they produced a discourse that maximized royal authority and promoted solidarity between sender and recipient This book situates letters within medieval theories of composition and habits of reception to argue that even mundane letters of governance were rhetorical texts It focuses on the example of Edward I of England whose rhetorical prowess was noted often critically by contemporaries It shows how the king's correspondence varied in tone vocabulary and structure across his reign and between recipients revealing an unexpected dynamism of political discourse Moving between historical context and close readings of individual letters this volume identifies letter writing as an art through which the king and his government attempted to negotiate and mould relationships with political communities and diplomatic interlocutors alike Royal Taxation in Fourteenth-Century France John Bell Henneman, 2015-03-08 The capture of the French king John II at Poitiers in 1356 marked the end of royal taxation as a temporary wartime expedient and its beginning as an annual assessment John Henneman's detailed treatment of war financing in the period immediately preceding from 1322 to 1356 is the first volume in a proposed study of royal finances in France during the fourteenth century Mr Henneman has chosen a chronological approach to his subject in order to show how the evolving theory and practice of taxation were affected by these turbulent years of war and negotiation political faction and dynastic feuds social and economic change Mr Henneman discusses the king's requirements for money over and above his normal revenues the methods he used to raise the funds the responses of his subjects and the changes these procedures made in the development of French institutions His study is based largely on unpublished sources especially the manuscripts found in French provincial archives As the royal financial records in Paris have been dispersed or destroyed these manuscripts arc of particular importance Originally published in 1971 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Iberia and the Mediterranean World of the Middle Ages, Volume* II Kagay, Padilla, Paul Chevedden, 2021-09-20 Brill's series The Medieval Mediterranean has established itself as the main forum for studies exploring all aspects of the Mediterranean world during a period of 1000 years In the medieval period the Mediterranean experienced a multiplicity of developments in social political and economic structures and in populations religions and cultures The centuries between the Late Roman world of the fourth and fifth century and the early modern Braudelian Mediterranean of the sixteenth century were characterised by sweeping changes including the establishment of post Roman kingdoms in the west the emergence of Slav societies in the Balkans the struggle between Christians and
