

APPENDIX A: CPT CODES AND ADDITIONAL INFORMATION

The First Schedule has been updated to incorporate by reference the 2019 edition of the American Medical Association's *Physician's Current Procedural Terminology, Fourth Edition (CPT®-4)*, including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this First Schedule CPT® codes that contain explanatory language specific to Astoria are provided for A. Codes identify, that are unique to Astoria and not otherwise listed in CPT®-4 are preceded by an AE identifier and numbered in the following format: AE000-xxx. Additional information regarding publications adopted by reference is found in the introduction of the First Schedule.

The evaluation and management guidelines adopted by reference may be found in the *Current Procedural Terminology: Fourth Edition (CPT® Book 1)* published by the AMA, and is expected to part below with permission. In the event that a conflict may arise between an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Astoria, then the Astoria code, guideline, identifier or modifier shall control.

4. **CLASSIFICATION OF EVALUATION AND MANAGEMENT (E/M) SERVICES:** The E/M section is divided into broad categories such as office visits, hospital visits, and consultations. Most of the categories are further divided into more specific subcategories of E/M services. For example, there are two subcategories of office visits: new patient and established patient; and there are two subcategories of hospital visits: initial and subsequent. The subcategories of E/M services are further classified into levels of E/M services that are identified by specific codes. This classification is important because the nature of each visit by type of service, phase of service, and the patient's status.

The basic format of the levels of E/M services is the same for most categories. First, a unique code number is found. Second, the phase and/or type of service is specified, eg, office consultation. Third, the content of the service is defined, eg, comprehensive history and comprehensive examination. Then "Levels of E/M Services" for details on the content of E/M services. Fourth, the nature of the presenting problem(s) usually associated with a given level is described. Fifth, the time typically required to provide the service is specified. A detailed discussion of this is provided below.

5. **DEFINITION OF COMMONLY USED TERMS:** Certain key words and phrases are used throughout the E/M section. The following definitions are included to reduce the potential for differing interpretations and to increase the consistency of reporting by physicians in differing specialties. E/M services may also be reported by other qualified health care professionals who are authorized to perform such services within the scope of their practice.

- **New and Established Patient:** Notably for the purposes of classifying services new and established patients, professional services are those that are first services rendered by physicians and other qualified health care professionals when they report evaluation and management services reported by a specific CPT code. A new patient is one who has not received any professional services from the physician/qualified health care
