

# PERSUASIVE TECHNIQUES WORKSHEETS

Question	Answer
1. What is the main purpose of the study?	To investigate the effect of the new curriculum on the learning outcomes of the students.
2. What are the research objectives?	To compare the learning outcomes of the students who were taught using the new curriculum with those who were taught using the old curriculum.
3. What is the research hypothesis?	The students who were taught using the new curriculum will have higher learning outcomes than those who were taught using the old curriculum.
4. What is the significance of the study?	The study is significant because it will help to determine whether the new curriculum is effective and whether it should be implemented on a larger scale.
5. What are the limitations of the study?	The study is limited to a small sample of students and only measures learning outcomes. It does not measure other factors such as student motivation or teacher effectiveness.
6. What are the conclusions of the study?	The study concludes that the new curriculum has a positive effect on learning outcomes, but further research is needed to confirm these findings.

The rule of three is what these objectives are placed next to each other to make an argument stronger and more memorable. For example, 'School uniforms are practical, affordable, and convenient'.

1. Choose the correct adjective from the word bank to add to the sentences to complete the rule of three.
