## **50 Strategies For Communicating And Working With Diverse Families 2nd Edition:**

*50 Strategies for Communicating and Working with Diverse Families* Janet Gonzalez-Mena, 2010

50 Early Childhood Strategies for Working and Communicating with Diverse Families is a practical and easy to use book. It presents key concepts, discusses them in research-based accessible prose, and provides useful strategies to facilitate communication and collaboration. The book focuses on family-centered care and education for young children and emphasizes partnering with families. Many of the strategies in this book address ideas about how to create a climate of trust by communicating in a collaborative way. The goal is to create inclusive programs that respect and honor differences in families and individuals. Teachers will love the fifty short chapters with information they can apply immediately. At the heart of all these strategies lies the welfare of the child.

**FEATURES** Emphasizes the importance of partnerships between teachers and family members. Stresses the integral components of communication between diverse families and teachers or administrators. Raises the important issue of respecting the various diversities and cultures that exist in today's classrooms. Reader-friendly writing style and the alphabetic arrangement of the strategies. Interesting, understandable, and easy to find what the student or teacher is looking for. Interwoven, cross-referenced strategies. Integrity throughout the book as the relationships between the strategies are highlighted. One strategy often mentions several other strategies that pertain to the same subject. Broad coverage spans ages 0-8 in a variety of different care and education settings. Applies to early childhood educators at all levels, not exclusive to Pre-K. Also includes child care but not exclusively. Goes beyond mere parent involvement and education. Closely examines how a partnership may include both but is different from the more common approaches early childhood educators often take to working with parents. Promotes a family-centered approach instead of a child-centered one that is common practice. Photos and artifacts illustrate the messages; these visual images are designed to help readers grasp information and enliven the book.

**New to this Edition** Strategies organized by categories rather than alphabetically. Emphasis on kindergarten and primary grade teachers. Diversity theme at forefront of strategies. New subjects covered include working with families to maintain home language, holidays in the classroom, media issues, improving child nutrition, children playing outdoors, and dealing with death in the family.

**Life and Loss** Linda Goldman,2013-11-20 Many clinicians recognize that denying or

ignoring grief issues in children leaves them feeling alone and that acknowledging loss is crucial part of a child's healthy development. Really dealing with loss in productive ways however is sometimes easier said than done. For decades *Life and Loss* has been the book clinicians have relied on for a full and nuanced presentation of the many issues with which grieving children grapple as well as an honest exploration of the interrelationship between unresolved grief, educational success and responsible citizenry. The third edition of *Life and Loss* brings this exploration firmly into the twenty-first century and makes a convincing case that children's grief is no longer restricted only to loss-identified children. Children's grief is now endemic; it is global. *Life and Loss* is not just the book clinicians need to understand grief in the twenty-first century; it's the book they need to work with it in constructive ways.
