An anthology of feminist cyberfiction and theoretical and critical writings on gender and technoculture. Most writing on cyberculture is dominated by two almost mutually exclusive visions: the heroic image of the male outlaw hacker and the utopian myth of a gender-free cyberworld. Reload offers an alternative picture of cyberspace as a complex and contradictory place where there is oppression as well as liberation. It shows how cyberpunk's revolutionary claims conceal its ultimate conservatism on matters of class, gender, and race. The cyberfeminists writing here view cyberculture as a social experiment with an as-yet-unfulfilled potential to create new identities, relationships, and cultures. The book brings together women's cyberfiction, fiction that explores the relationship between people and virtual technologies, and feminist theoretical and critical investigations of

gender and technoculture From a variety of viewpoints the writers consider the effects of rapid and profound technological change on culture in particular both the revolutionary and reactionary effects of cyberculture on women s lives They also explore the feminist implications of the cyborg a human machine hybrid The writers challenge the conceptual and institutional rifts between high and low culture which are embedded in the texts and artifacts of cyberculture *Cut to the Chase.
