Beatitudes True Religion Robert Davidson:

The Beatitudes Robert Davidson, 2015-12-18 There is a deep need today to discover what true religion is Around our world we have seen terrorist attacks in the name of religion In America we have witnessed over the past decades a shift from a slowly dying traditional religion to a growing mega church contemporary religion If we want to hear God speak to us we need to hear God speak to us in the simple but most profound words ever spoken The words of Jesus The message of his sermon on the mount The blessings of the beatitudes That is what this book is about To hear God speak To reclaim the true religion of Jesus To let these eight principles transform our lives and return to the True Religion of Jesus Jesus did not deliver his message in a haphazard manner No his message was an organized and systematic approach to what True Religion is These eight eternal principles unlock for us the key to happiness in our lives based on our connection with God Mankind can only find happiness in the principles of Jesus Men and women in all walks of life can connect with God God speaks to us We do not need to search near and far high and low on the surface or in the deep to find the True Religion It is found here The Beatitudes of Jesus My book is practical It is also theological It is personal It is also biblical No stone is left unturned Every area of our lives our ultimate underlying dependency upon something else our desperate need of forgiveness our finest character quality our greatest need and desire our highest attribute as a person our deepest connection with God our greatest aspiration in life and the final result of the days that come as a result of the practice of the principles of the True Religion all are revealed by what Jesus said In these principles are the pristine purity of what life is about and how we can connect with God

with them which must be apparent in every line that he has written These essays written for the Fortnightly Review in the summer and autumn of 1881 were intended as first sketches only of a maturer work which the author hoped before giving finally to the public to complete at leisure and develop in a form worthy of critical acceptance and of the great subject he had chosen Events however have marched faster than he at all anticipated and it has become a matter of importance with him that the idea they were designed to illustrate should be given immediate and full publicity The French by their invasion of Tunis have precipitated the Mohammedan movement in North Africa Egypt has roused herself for a great effort of national and religious reform and on all sides Islam is seen to be convulsed by political portents of ever growing intensity He believes that his countrymen will in a very few months have to make their final choice in India whether they will lead or be led by the wave of religious energy which is sweeping eastwards and he conceives it of consequence that at least they should know the main issues of the problem before them To shut their eyes to the great facts of contemporary history because that history has no immediate connection with their daily life is a course unworthy of a great nation and in England where the opinion of the people guides the conduct of affairs can hardly fail to bring disaster *Political Theology of Life* Saitya Brata

Das,2023-02-14 Taking up the work of Meister Eckhart F W J von Schelling and S ren Kierkegaard *Political Theology of Life* formulates the task of an unconditional affirmation of life Such a political theology consists of constructing a kenotic eschatology which puts into question any political attempt to justify and legitimize any world historical hegemony on a theological foundation The work thereby argues that in today s neoliberal secular world of narcissistic mass consumption in the age of extreme capitalism such an affirmation of life released from the grasp of sovereign power is the highest ethico religious task of our time The work shows that each of these thinkers Meister Eckhart at the epochal closure of the medieval world and Schelling and Kierkegaard from the heart of the epochal condition of modernity has exposed open a dimension of infinitude and manifestation that can be truly inspiring for us that is to say in the abandonment of all worldly attributes lies a receptivity to the highest gift of beatitude an opening to the infinitude that sanctifies our worldly existence which is a radical gift arriving from an origin without origin and without foundation a gift that does not have to be anchored in the nomothetic operation of worldly hegemonies Illumination Book Award winner in poetry <https://illuminationawards.com> 20 2023 medalists
