**Beautiful Terrible Ruins** Dora Apel, 2015-06-23 Once the manufacturing powerhouse of the nation Detroit has become emblematic of failing cities everywhere the paradigmatic city of ruins and the epicenter of an explosive growth in images of urban decay In *Beautiful Terrible Ruins* art historian Dora Apel explores a wide array of these images ranging from photography advertising and television to documentaries video games and zombie and disaster films Apel shows how Detroit has become pivotal to an expanding network of ruin imagery imagery ultimately driven by a pervasive and growing cultural pessimism a loss of faith in progress and a deepening fear that worse times are coming The images of Detroit's decay speak to the overarching anxieties of our era increasing poverty declining wages and social services inadequate health care unemployment homelessness and ecological disaster in short the failure of capitalism Apel reveals how through the aesthetic distancing of representation the haunted beauty and fascination of ruin imagery embodied by Detroit's abandoned downtown skyscrapers empty urban spaces decaying factories and derelict neighborhoods help us to cope with our fears But Apel warns that these images while pleasurable have little explanatory power lulling us into seeing Detroit's deterioration as either inevitable or the city's own fault and absolving the real agents of decline corporate disinvestment and globalization *Beautiful Terrible Ruins* helps us understand the ways that the pleasure and the horror of urban decay hold us in thrall **Branding**

nostalgia to be skeptical of it yet cleave intently to the complex truths of feeling and thought In a series of 64 gorgeous ramifying unsettling prose poems addressing late twentieth and twenty first century experience and its discontents *The Ruins of Nostalgia* offers a strikingly original exploration of the misunderstood phenomenon of nostalgia as both feeling state and historical phenomenon Each poem also titled *The Ruins of Nostalgia* is a kind of lyrical mini essay playful passionate analytic Some poems take a location memory conceit or object as their theme Throughout the series the poems recognize and

celebrate the nostalgias they ironize which are in turn celebrated and then ironized again Written often in the fictional persona of the first person plural *The Ruins of Nostalgia* explores the rich territory where individual response meets a collective phenomenon sample poem *The Ruins of Nostalgia* 13 Where once there had been a low end stationery store minded by an elderly beauty queen there was now a store for high end espresso machines minded by nobody Where once there had been an illegal beer garden in a weedy lot there was now a complex of luxury lofts with Parisian style ivory fa ades Where once there had been a bookstore and a bike shop and a bakery there was now a wax museum for tourists Where once there had been an empty lot there was now a building Where once there had been an empty lot there was now a building Where once there had been an empty lot there was now a building Where once there had been an empty lot there was now a building Where once there had been farms there were now subdivisions Where once there had been subdivisions there were now sub subdivisions We lived in a sub subdivision of a subdivision We ourselves had become subdivided where once we had merely been of two minds Where once there had been a river there was now a road A vocal local group had started a movement to break up the road and daylight the river which still flowed in the dark underneath the road Could we daylight the farms the empty lots the stationery store the elderly beauty queen the city we moved to Was it still flowing somewhere under the luxury lofts deliquescing in the dark inhabited by our luxury selves not yet subdivided because not yet whole Could we daylight the ruins of nostalgia

*District 9: Johannesburg as Nostalgic Dystopia* Landi Raubenheimer, 2024-12-23 The film *District 9* made waves as an allegory of apartheid on the big screen but it has not yet been given its rightful place as a landmark depiction within broader visual cultural studies of Johannesburg and cities in the Global South In this book Landi Raubenheimer argues that *District 9*'s portrayal of Johannesburg reverberates within a larger body of representations of the city collectively shaping a unique visual idiom for the post apartheid city as nostalgic dystopia Delving deeply into *District 9* Raubenheimer brings to light the fascination that images of the city as nostalgic dystopia has held for filmmakers photographers viewers and lovers of Johannesburg alike

***Creative Cities, Tourism and Street Art in a Global Frame*** Ricardo Klein, Caitlin Bruce, 2025-02-14 This book explores the use of street art tourism in eight cities Barcelona Paris Porto

A Poverty of Objects Jonathan Monroe, 2019-05-15 The prose poem Jonathan Monroe asserts is the genre that does not want to be itself In his view the dominant literary historical role of the prose poem has been to test the limits of generic constraints Monroe here undertakes a comparative and historical investigation of the problematic relationship between prose and poetry and of the development of the prose poem over the past two centuries

**The Conquest of Ruins** Julia Hell, 2019-03-19 The Roman Empire has been a source of inspiration and a model for imitation for Western empires practically since the moment Rome fell Yet as Julia Hell shows in *The Conquest of Ruins* what has had the strongest grip on aspiring imperial imaginations isn't that empire's glory but its fall and the haunting monuments left in its wake Hell examines centuries of European empire building from Charles V in the sixteenth century and Napoleon's campaigns of the late seventeenth and early eighteenth centuries to the atrocities of Mussolini and the Third Reich in the 1930s and 40s and sees a similar fascination with recreating the Roman past in the contemporary image In every case particularly that of the Nazi regime the ruins of Rome seem to represent a mystery to be solved how could an empire so powerful be brought so low Hell argues that this fascination with the ruins of greatness expresses a need on the part of would-be conquerors to find something to ward off a similar demise for their particular empire

**Flyover Fictions** Cornelia Klecker,Sascha Pöhlmann,2025-04 Flyover Fictions critically engages the history and contemporary use of the flyover country trope in American culture and repurposes the concept as an abstract tool for cultural studies The term flyover arose in the 1970s with variations flyover country flyover states mainly used as synonyms for the American Midwest in intranational banter regarding cultural differences from the dominant urban centers of New York City and Los Angeles In recent years the trope has shifted away from this playfulness and its traditional geographic reference points to indicate larger political and cultural developments that speak of a deepening polarization in the United States Flyover Fictions is an exploration of the trope s current politicization historical contexts and general proliferation of meanings Instead of resolving the ambiguities inherent in the concept the volume considers what can be done with these ambiguities and how precisely their fuzziness might be used to create an analytic tool to describe understand and critique processes of cultural hierarchization The contributors show how flyover fictions may operate in different national contexts and also internationally or transnationally not only providing a fresh perspective on historical and contemporary American culture but also supplying a conceptual toolbox for broader use
