Beck Hopelessness Scale Manual:

BHS, Beck Hopelessness Scale Aaron T. Beck, 1993 **Practitioner's Guide to Empirically-Based Measures of Depression** Arthur M. Nezu, George F. Ronan, Elizabeth A. Meadows, Kelly S. McClure, 2006-05-02 This book is intended to guide clinicians and researchers in choosing practical tools relevant for clinical assessment intervention and or research in this area It contains over 90 reviews of measures of depression and depression related constructs It provides summary tables comparing and contrasting different instruments in terms of their time requirements suitability costs administration reliability and validity and sample copies of 25 instruments in the public domain **Clinical Manual for Assessment and Treatment of Suicidal Patients, Second Edition** John A. Chiles, M.D.,irk D. Strosahl, Ph.D.,Laura Weiss Roberts, M.D., M.A.,2018-08-23 Since the first edition of Clinical Manual for Assessment and Treatment of Suicidal Patients was published in 2005 advances have been made that increase our understanding of suicidal and self destructive behavior Although clinicians cannot unerringly predict which patients will die by suicide they can focus more successfully on early identification of suicidal behavior and effective intervention and this new edition of the clinical manual thoroughly explores not only assessment of suicidality but what comes after an at risk patient has been identified The authors argue that treating specific psychiatric disorders is not enough to prevent suicide and they offer clinicians the necessary information and strategies to bridge that gap The authors main premise is that suicide is a dangerous and short term problem solving behavior designed to regulate or eliminate intense emotional pain a quick fix where a long term effective solution is needed and this understanding is the underpinning of the assessment and treatment strategies the authors recommend Table of Contents Dimensions of suicidal behavior The clinician s emotions values legal exposure and ethics global issues in the treatment of suicidal patients A basic model of suicidal behavior a problem solving model of suicidal behavior Assessment and case conceptualization fundamental components of effective treatment Outpatient interventions with suicidal patients caring for suicidal patients outside of the hospital Suicidal behavior and use of psychotropic medications The repetitiously suicidal patient evaluation intervention and crisis response Managing suicidal emergencies using crisis to create positive change Hospitals and suicidal behavior a complex relationship Suicidality and special populations Suicidal patients in primary care responding to the challenge **Handbook of Evidence-Based Treatment Manuals for Children and Adolescents** Craig Winston LeCroy, 2008-04-18 With the advance of evidence based practice has come the publication of numerous dense volumes reviewing the theoretical and empirical components of child and adolescent treatment There are also a variety of detailed treatment manuals that describe the step by step procedures to guide ongoing research and practice The second edition of Craig Winston LeCroy s Handbook of Evidence Based Child and Adolescent Treatment Manuals is a forceful combination of the two approaches as he gathers fifteen varied treatment manuals and brief summaries of the research supporting each to ensure that practitioners will truly understand how to implement the treatments they are using A completely revised and

expanded edition of the handbook's first edition this is an essential guide to some of the best programs for helping children and teens. Each chapter begins with an explanatory section that discusses the theoretical and empirical underpinnings of the programs. The treatment manual follows leading readers through sessions with specific details about conducting the treatment that have been refined and improved through extensive testing and research. Organized into three sections: the major clinical disorders, social problems confronting children and teens, and preventive interventions, the Handbook brings together some of the most esteemed researcher-practitioners in the child and adolescent field. The book presents an impressive variety of innovative treatment programs and techniques, including the SiHLE program intended to prevent problems confronting children and teens and preventive interventions. The Handbook brings together some of the most esteemed researcher-practitioners in the child and adolescent field. The book presents an impressive variety of innovative treatment programs and techniques, including the SiHLE program intended to prevent HIV through education and self-esteem building, the Children of Divorce Intervention Program, a therapy for younger children stressing resilience and skill building, and Strengths Oriented Family Therapy, which reaches out to substance-involved adolescents and their families. The Handbook of Evidence-Based Child and Adolescent Treatment Manuals is an indispensable reference for researchers, graduate students, and practitioners working with children and adolescents in a multitude of settings, from schools and juvenile correction centers to group homes and family service agencies.
