Speech: "Tweens" Are Ready for Cell Phones by Deborah Pendergast
"Safer Kids Summit"

Thank you for inviting me to the first "Safer Kids Summit." We are here to discuss ways to keep our children safe in an increasingly complex world. Today's focus is on technology— specifically on the ideal age to give kids their own cell phones. As a representative of a large telecommunications company, I receive many inquiries from parents on this topic, and this is what I tell them: It depends on the child, of course, but in general, age 10 is just about right.

A 2012 survey by the National Consumers League backs me up. The survey found that almost 60 percent of children ages 8 to 12 already have cell phones. These "tweens" can contact their parents at any time, and vice versa, giving the kids a sense of empowerment and their parents a feeling of security. Caroline Knorr, of the group Common Sense Media, says, "We want our kids to be independent, to be able to walk home from school and play at the playground without us. We want them to have that old-fashioned, fun experience of being on their own, and cell phones can help with that." Picture the following scenario: You told your fourth-grader that you would pick her up after school, but you are stuck in traffic. She is waiting for you ...and waiting, and waiting. But if you both have cell phones, you can call her to let her know you are delayed, and she can go back inside the school, where there are adults around. You both breathe a sigh of relief.
