building engineering studies The authors explain how the construction sector demands that future architects and building
engineers have the knowledge and skills that allow them to meet the decarbonization objectives established by international
organizations and that this causes the level of knowledge to be higher The contributors further discuss new technologies and
the internationalization of studies presenting new challenges university studies must face This heterogeneity is represented
in the chapters that make up this book developed by researchers from different countries The book is divided into three
blocks i Active learning methodologies ii Innovative methodologies applied to learning process and iii Traditional vs
Advanced Techniques The chapters of the book represent an advance in the current knowledge of teaching innovation
