Conspiratorial fears and desires about biblical discoveries are amplified and contained within the covers of a formulaic fiction genre **Secret Scrolls** Robert M. Price, 2010-12-27 Secret Scrolls is the very first examination of some forty novels in which someone discovers a new gospel Sometimes it turns out to be a hoax will it be debunked before it can work its mischief If it proves genuine will it be brought to light Or will corrupt church officials manage to prevent it The book evaluates what each author has to say about historical Jesus scholarship or New Testament research in general Sometimes the authors have done their homework other times they haven't bothered and they wind up dishing up crazy rewrites of history and outlandish theories These novels deal with abiding issues of faith even without some new discovery As soon as one engages in biblical apologetics one has stepped onto the marshy ground of probabilistic arguments an entirely different epistemology that automatically replaces simple faith And so one comes to hold one's religious convictions more tentatively having become genuinely vulnerable to new evidence One may not remain a believer for long On the other hand one invites fanaticism if one's faith is dangerously predicated on the assurance that no new discovery will send one back to the drawing board Secret Scrolls assesses what each author imagines it would take to derail and debunk Christianity How mighty a blow must be dealt before the religion would fall Dan Brown's notion that a married Jesus would debunk the Nicene Creed is laughable As

Wilbert Francis Howard once argued in his brief and fascinating history of New Testament research there is a genuine romance of New Testament scholarship and many of us are delighted to have the adventure continue in the speculative imaginations of capable novelists These books can both entertain and educate and so will Secret Scrolls **The Atlantis Collection: Atlantis, Crusader Gold, The Last Gospel** David Gibbins,2014-09-11 THE ATLANTIS COLLECTION brings together bestseller David Gibbins unputdownable first three novels featuring underwater archaeologist Jack Howard Fans of Dan Brown and Clive Cussler will thrill to this stunning collection In ATLANTIS Jack Howard uncovers what could be the key to the lost island during a dive in the Mediterranean This astounding discovering is beyond Jack s wildest dreams but it has devastating consequences Jack finds himself in a terrifying game of life and death that could destroy thousands of lives In CRUSADER GOLD a dive for a lost Crusade treasure in Istanbul and an unearthed medieval map in an English cathedral library together have the power to alter history A thrilling but lethal quest takes Jack Howard back to the greatest of Viking Conquerors to the fall of the Nazis and the darkest secrets of the modern Vatican In THE LAST GOSPEL Jack Howard is on the hunt to unravel the story of one last Gospel left behind in the age of the New Testament This extraordinary secret has the power to shatter the foundations of the Western World and endangers Jack like never before **The Rise and Fall of American Science Fiction, from the 1920s to the 1960s** Gary Westfahl,2019-10-04 By examining important aspects of science fiction in the twentieth century this book explains how the genre evolved to its current state Close critical attention is given to topics including the art that has accompanied science fiction the subgenres of space opera and hard science fiction the rise of SF anthologies and the burgeoning impact of the marketplace on authors Included are in depth studies of key texts that contributed to science fiction s growth including Philip Francis Nowlan s first Buck Rogers story the first published stories of A E van Vogt and the early juveniles of Isaac Asimov Arthur C Clarke and Robert Heinlein Atlantis David Gibbins,2010-03-04 Archaeologist Jack Howard is a brave but cautious man When he embarked on a new search for buried treasure in the Mediterranean he knew it was a long shot But when Jack Howard and his intrepid crew finally got close to uncovering the secrets the sea had held for thousands of years nothing could have prepared them for what they would find

Societies Michael Howard,2007-12-05 An overview of how esoteric brotherhoods have shaped history Examines the secret chronology and clandestine causes of seminal world events Shows how secret societies feed into one another and how they have worked together For thousands of years secret societies guardians of ancient esoteric wisdom have exercised a strong and often crucial influence on the destiny of nations Though largely ignored by orthodox historians the Freemasons Knights Templar and Rosicrucians affected the course of the French and American Revolutions as well as the overthrow of the medieval feudal order Inevitably the true ideals and esoteric practices of these societies have at times been perverted by self serving individuals The Nazis and the Bolsheviks British security forces the founding fathers of America and the Vatican have all justified their actions for good or for ill by claiming the mystic ideals of secret societies Michael Howard explores these connections tracing their effects in politics and statecraft from the time of ancient Egypt up to the present He sheds light on the influence of secret societies on governments and in the lives of many well known figures including Frederick the Great John Dee Francis Bacon Benjamin Franklin Comte de Cagliostro Helena Blavatsky Rasputin and Woodrow Wilson He contends that the recent formation of the European Union was directed by an umbrella group of secret societies and reveals that though secret societies have been persecuted throughout history they have survived and continue to operate powerfully in world affairs today *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1907
