International Monetary Fund. European Dept.,2023-03-02 Post pandemic recovery slowed with spillovers from Russia's war in Ukraine and high inflation financial conditions tightening and elevated uncertainty In response to the spike of energy prices the federal and regional authorities provided timely and substantial support to households and firms Along with automatic indexation of wages and benefits energy support helped cushion impacts although at significant cost increasing the fiscal deficit in 2022 and 2023 The labor market has remained tight with record high job creation and low unemployment The external current account swung to a large deficit in 2022 due largely to higher energy imports and lower vaccine exports Energy consumption is being cut and gas imports reoriented A resilient financial sector is facing challenges from the weaker macro financial environment      *Oxford Agrarian Studies* ,1972      **1946**
