ACCOUNTING P1 MARKING GUIDELINE

MARKS: 150

MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guideline, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answer. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark as working for that figure (not the method mark for the answer). NOTE: If figures are stipulated in marking guideline for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or - sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. Where penalties are applied, the marks for that section of the question cannot be a final negative.
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, the marker must inspect the reasonableness of the answer before awarding the mark.
10. 'Operation' means 'Check operation'. 'One part correct' means 'Operation and one part correct'. NOTE: check operation must be +, -, x, ÷, as per candidate's calculation (if valid) or per memorandum.
11. In calculations, do not award marks for workings if numerator and denominator are swapped – this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate by with a [2]
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: f = foreign item; p = placement/presentation.

This marking guideline consists of 12 pages.

Sovereign Debt Restructurings in Belize Mr. Tamon Asonuma, Gerardo Peraza, Kristine Vitola, Mr. Takahiro Tsuda, 2014-07-22 This paper examines the causes processes and outcomes of the two Belize sovereign debt restructurings in 2006 07 and in 2012 13 that occurred outside of an IMF supported program It finds that the

motivation for the two debt restructurings differed as the former was driven by external liquidity concerns while the latter was motivated by a substantial increase in the coupon rates and future fiscal solvency concerns Despite differential treatment between residents and non residents both 2006 07 and 2012 13 debt exchanges were executed through collaborative engagement due in part to the existence of a broad based creditor committee and the authorities effective communication strategy However while providing temporary liquidity relief neither of the debt restructurings properly addressed long term debt sustainability concerns Going forward the success of the 2012 13 debt restructuring will still depend on the country s ability to strengthen fiscal efforts and public debt management framework *Accounting, Google eBook* Shirley Carlon,Rosina Mladenovic-McAlpine,Chrisann Palm,Paul D.
