

Chapter 1 – Managerial Accounting & the Business Environment

What is Managerial Accounting – providing information to managers

How does it differ from Financial Accounting – providing information to stockholders, creditors, and others who are outside of organization. Managerial Accounting is for internal purposes while financial accounting is for those outside of the organization

Financial Accounting	Managerial Accounting
Emphasizes financial consequences of past activities	Emphasizes decisions affecting the future
Emphasizes objectivity and verifiability	Emphasizes relevance
Emphasizes precision	Emphasizes timeliness
Mandatory and follows GAAP	Not mandatory no rules

Goal of Firms – Maximize Shareholder Wealth

Maximize Shareholder Wealth = Maximize Economic Profits

Value Chain - consists of major business functions that add value to a company's product and services

Non Value Added Activities – customers are not willing to pay for because they add no value

Chapter 2 – Managerial Accounting & Cost Concepts

Product vs. Period Costs

Product -all costs involved in acquiring or making of products (Include: Direct Labor, Direct Materials, & Manufacturing Overhead)

Period – not product costs and accrued on income statement in period they are occurred (Selling & Administrative Expenses)
