At Home An Anthropology Of Domestic Space Space Place And Society:

At Home Irene Cieraad, 2006-09-28 In a volume that brings together a wide range of disciplines art history sociology architecture cultural anthropology and environmental psychology Irene Cieraad presents a collection of articles that focuses on the practices and symbolism of domestic space in Western society These essays go beyond the discussion of conventional issues such as aesthetics and social standing *At Home* takes an in depth anthropological look at how different cultures use their homes as a visual model of the culture's social structure

Making Space John Rennie Short, 2004-03-01 The cosmos was bound in a sphere the world was gridded and plotted the seas navigated and the land surveyed Spatial practices were codified a spatial sensitivity was created and a cartographic literacy was established in the increasing use of maps and the creation of a cartographic language for new mappings of the world state and city Short establishes that such spatial revisioning is connected to the promotion of commercial and national interests Developments in navigation for example were often encouraged and promoted both by the state and by merchant companies Surveying was closely connected to the rising cost of land and to the increasing commodification of agriculture The continuous price rise of land in the sixteenth century was an important factor in the rise of spatial practices of mapping and surveying In addition he highlights the role of the occult practices in the new spatial sciences Astrology and alchemy were as important as astronomy and geometry The cosmographers of the sixteenth century encompassed a wide arc of intellectual endeavors

Symbolic Home: Exploring ancient feng shui roots for contemporary practice Sofia Batalha, 2020-05-23 Have you ever heard of Feng Shui but everything you read seems confusing and contradictory You don't know how to go from theory to practice and there are rules that are abstract and random to you You've never heard of Feng Shui but do you feel the Home is more than just four walls The Symbolic Home Feng Shui Practice The Symbolic Feng Shui method is based on the millenary concepts of Feng Shui adapted to the here and now A method that allows one to see and feel the Home far beyond its form function giving it an emotional and symbolic dimension In this way each division is an individual spatial identity with its own symbology structure and emotions The book serves as a starting point for a full and conscious experience of private space Start changing today

Frontiers of Femininity Karen M. Morin, 2008-12-18 British explorer and professional travel writer Isabella Bird is to the modern eye a study in contradictions One of the premier mountaineers and world explorers of her generation she was in 1892 the first woman elected to London's Royal Geographic Society And yet Bird's books on her travels are filled with depictions of herself and other women that reinforce the properly feminine domestic and behavioral codes of her day In this fascinating and highly original collection of essays Karen Morin explores the self expression of travel writers like Bird by giving geographic context to their work With a rare degree of clarity the author examines relationships among nineteenth century American expansionism discourses about gender and writings of women who traveled and lived in the American West in the late nineteenth century British travelers American journalists a Native American tribal leader and female naturalists

Drawing from a rich diversity of primary sources from published travelogues and unpublished archival sources such as letters and diaries to newspaper reportage Morin considers ways in which women's writing was influenced by the material circumstances of travel in addition to the various social norms that circumscribed female roles Ranging in scale from the interior of train cars and the homes of these women to the colonial projects of conquering the American West the author illustrates how geography was fundamental to the formation of women's identity and greatly influenced the gendered and colonialist language found in their writing

Beside One's Self Catherine Robinson, 2011-05-24 What is it to feel homeless How does it feel to be without the orienting geography of home Going beyond homelessness as a housing issue this book uniquely explores the embodied emotional experiences of homelessness In doing so Robinson reveals much about existing gaps in service responses in community perceptions and in the ways in which homelessness most often becomes visible as a problem for policy makers She argues that the emotional dimension of displacement must be central to contemporary practices of researching understanding writing and responding to homelessness She situates the issue of homelessness at the nexus of important broader intellectual and methodological developments that take bodily and spatial experience as their starting point Drawing on field research and interviews

Robinson details the lives of homeless individuals in Sydney Australia The moving narratives of these individuals bear witness to the key experiences of corporeal fragmentation geographical detachment and social alienation At the book s core lies a call to legitimize scholarly work that focuses on emotions particularly trauma facilitating researchers and policy makers to explore new avenues for evaluating service delivery Beside One s Self bridges the divide between research that has policy implications and research that makes theoretical contributions

The Boundless Self Paul C. Adams,2005-05-17

Using the body as an axis for geographical theory this book argues that communication empowers self to constantly transcend its physical limits It urges complete review of personal borders in space and time based on symbols signs and signals that redefine ties to the tangible world i e Dear John letters layout of furniture in rooms or chronic illness Adams shows how vehicular transit has altered traditional modalities like walking or biking while navigation of space and virtual space has led to boundary blurring He covers transforming moments in communication from the rise of writing to invention of the printing press telephone and electronic media To better understand human geography he also plumbs the relation of space and time to notions of romance identity and meaning Citing geographers throughout the ages and the effects of mercantile industrial and current global economies The Boundless Self is sure to provoke thought and theory among geographers communicators and scholars alike

Women, Religion, and Space Karen M. Morin,Jeanne Kay Guelke,2007-06-01

This volume studies females who practice or interact with gender norms of Christianity Judaism and Islam in relation to the geography of place The book focuses on attempts by religious and secular authorities to control women s access to distinct spaces to show how religious women navigate harsh terrain and attain mobility within established institutions The writings are grouped under three sections Women and Colonial Regimes Religion and Women s Mobility and New Spaces for Religious Women Secular critical and comparative viewpoints are explored with much of the scholarship steeped in fieldwork i e an orthodox district in Jerusalem a shopping mall in Istanbul women travelers in Pakistan and Korean immigrant women in Los Angeles

Contributors broaden notions of space to extend beyond architecture national borders external and internal boundaries and assorted identifying markers such as race or clothing In examining a new aspect of space geography these essays promote challenge irony and unexpected avenues of thought Multi cultural and international in scope this work makes a significant groundbreaking contribution to the field of geography

The Politics of Landscapes in Singapore Lily Kong,Brenda S.

A. Yeoh,2003-02-01 This thought provoking book explores strategies employed by Singapore a multiracial society to create a Singapore nation with an emphasis on the role of landscape As such the authors cast keen eye on religious buildings public housing heritage landscapes and street name changes as tangible methods of nation building in a postcolonial society The authors illustrate how nation and national identity are concepts that are negotiated and disputed by varied social economic and political groups some of which may actively resist powerful state centrist attitudes Throughout this work the role of the landscape prevails both as a way to naturalize state ideologies and as a means of providing possibilities for reinterpretation

in everyday life *Alabaster Cities* John Rennie Short,2006-12-05 With keen insight and exhaustive research John Rennie Short narrates the story of urban America from 1950 to the present revealing a compelling portrait of urban transformation Short chronicles the steady rise of urbanization the increasing suburbanization and the sweeping metropolitanization of the U S uncovering the forces behind these shifts and their consequences for American communities Drawing on numerous studies first hand anecdotes census figures and other statistical data Short s work addresses the globalization of U S cities the increased polarization of urban life in the U S the role of civic engagement and the huge role played by the public sector in shaping the character of cities With deft analysis the author weaves together the themes of urban renewal suburbanization and metropolitan fragmentation race and ethnicity and immigration presenting a fascinating and highly readable account of the U S in the second half of the twentieth century **Imagined Country** John Rennie Short,2005-11-15 Explores the relationship between society and the physical world through representation the artistic re creation of the physical world which reflects interpretation Pleasure Zones David Bell,Jon Binnie,Ruth Holliday,Robyn Longhurst,Robin Peace,2001-07-01 How does a subculture appropriate space within the dominant culture What is the city s relationship to the body Geographers from England and New Zealand apply queer theory in their consideration of the human body as a vehicle for understanding relationships between people and place These provocative essays examine the body as an entity constricted by gender sexuality race class nationality and disability They also look at sexual identity as it relates to communities and how humans do gender through regulated practices such as heterosexuality *Pleasure Zones* tackles topics such as the politics of gay men s health the relationship of sex and death to the city erotic urban landscapes and how public policy labels lesbians Each essay attempts to reconcile queer theory and social and cultural theory with the discipline of geography The result is an illuminating and accessible look at the formation of personal and collective identities Building on two decades of geography that recognizes the body as a politicized site of struggle and applying the perspective of the sexual dissident *Pleasure Zones* brings a fascinating variety of human experiences into sharp relief **Inventing Black-on-Black Violence** David Wilson,2005-06-06 This book explores the societal construction of black on black referring to the 1980s when violence among African American perpetrators and victims increased Massive job losses debased identities and rampant physical decay made American blacks seem ripe for explosive behavior Many people blamed black lifestyle values and culture David Wilson shows how America imbued a process of violence with race and accepted it as one of the country s most vexing ills during the Reagan era and afterward Based on statistics ethnographies anecdotal accounts and national reportage the findings are hard to dispute Wilson tells of prominent conservative and liberal writers reporters and politicians who collectively nurtured this issue then parlayed it into truth in the public mind Mixing memoirs critical geographical studies and race theory the book shows how vulnerable groups of society can become pawns in an acute process of racial demonization And how in America this allowed blacks to be marginalized **Verandahs of Power** Garth Andrew

Myers, 2003-02-01 Garth Andrew Myers work makes a significant contribution to a long tradition of research on colonial cities and a multidisciplinary body of literature on urban legacies of colonialism He examines both colonial rule and postcolonial inheritance in these cities tracing the legacies of colonialism in different and divergent postcolonial settings a revolutionary left wing socialist state Zanzibar and a reactionary right wing dictatorship Malawi In addition to the examination of urban plans and the African urban majority's responses to them the book traces the experience of the urban planning process through three different verandahs of power or levels of class depiction the colonial power the colonized middle and the urban majority Interspersed with personal stories this book illuminates our understanding of the workings of power in African cities by addressing human experiences of that power

Green Syndicalism Jeff Shantz, 2012-10-10 It is widely understood that the burdens of ecological destruction are borne disproportionately by working class and poor communities both through illness and disease caused by pollutants and through the depletion of natural resources from which they make a living Yet consistently the voices of the working class are the most marginalized excluded and silenced when discussing how to address ecological concerns and protect the environment from future destruction Both mainstream environmental groups such as the Sierra Club and Greenpeace and radical environmentalists such as EarthFirst are reluctant to engage with working class and poor communities often viewing blue collar workers as responsible for the destruction these groups are trying to prevent In *Green Syndicalism* Shantz issues a call to action to the environmental movement and labor activists particularly rank and file workers to join forces in a common struggle to protect the environment from capitalism corporate greed and the extraction of resources He argues for a major transformation to address the jobs versus the environment rhetoric that divides these two groups along lines of race and class Combining practical initiatives and theoretical perspectives Shantz offers an approach that brings together radical ecology and revolutionary unionism in a promising vision of green politics Green syndicalists work as coalitions to increase community based economics and productive decision making that encourages the participation of all stakeholders in the process Drawing in part on his own experiences growing up in a working class family and organizing within radical ecology and labor movements Shantz charts a path that accesses the commonalities between these groups in an effort to take on the forces that destroy the environment exploit people and harm their communities
