Who Is Winning the War in Afghanistan? Sayed Zia Sais, 2011-10-25 Who Is Winning The War In Afghanistan A pro Communist coup the impact and aftermath of the Soviet 1978 79 invasion and 30 years of war have demolished the social life cohesion integrity solidarity trust capacity and economy of Afghanistan Millions of people have migrated to foreign countries houses and villages have been destroyed the countrys economy and infrastructure has been utterly destroyed millions of young civilians and children have been deprived of education and thousands of women have been widowed The conflict in Afghanistan has also had a great impact on security economy and the political prosperity of other parts of the world The 9 11 incidents which shocked the world once again drew international attention back to the forgotten Afghanistan The Bonn conference 2001 the NATO led invasion the collapse of the Taliban regime and the promises of the international community to build a democratic Afghan government with a solid institution and strong security force created great hopes amongst the Afghan population for a better future After the fall of the Taliban regime the violence and insurgency began to increase Despite all international efforts and an increase in troop numbers from 10 000 in 2002 to around 140 000 in 2010 and the spending of 50 billion in aid the Afghan government is still weak and does not have control over the whole country the armed forces are not strong enough violence continues to rise and last year was the deadliest year in nearly nine year of war additionally the security situation across the country looks increasingly bad The lasting war has had little success in Afghanistan the pressure of insurgents increasing casualties unpopularity of war among the population of NATO led countries and enormous war costs in a worsening economic climate have caused the announcement of the withdrawal of troops by US President B Obama in 2011 and the UK Prime Minister D Cameron by 2015 This book aims to determine the answer to the question of whether the Coalition Forces are winning the war in Afghanistan **Al Qaeda, the Taliban, and Other Extremists Groups in Afghanistan and Pakistan** United States. Congress. Senate. Committee on Foreign Relations, 2011 **From Northern Ireland to Afghanistan** Jon Moran, 2016-04-22 Moran concentrates on three aims to provide an overview of British military intelligence operations in the last 30 years which concentrates on operational not strategic intelligence to examine the debates over ethics and effectiveness that have followed these operations and to examine the increasing attempts to place military intelligence under the same type of regulation that police and security intelligence operations have been subject to As such he provides a timely overview of intelligence effectiveness and ethics in this area of heightened interest and relevance in terms of the recent UK deployments to Iraq and Afghanistan and in the light of the UK Strategic Defence Review This book is not a philosophical discussion of military ethics nor is it a study of operations alone In the light of experiences from Northern Ireland to Afghanistan it examines the debates over effectiveness which have surrounded British military intelligence activities whilst tying these debates closely to the ethical issues they raise Each stage of operations is evaluated in context Interest will cut across disciplines and as such this book will appeal to

On Ops: Lessons and Challenges for the Australian Army since East Timor Tom Frame,Albert Palazzo,2016-07-01 No one in the Australian government or Army could have predicted that in the 25 years following the end of the Cold War Army personnel would be deployed to Rwanda Cambodia Somalia Bougainville East Timor Afghanistan Iraq and the Solomon Islands In a constructive critique of the modern Australian Army On Ops examines the massive transformation that has taken place since troops were deployed to East Timor 1999 After decades of inactivity and the long peace of the 1970s and 1980s the Army was stretched to the limit Contributors include John Howard and Peter Leahy as well as Craig Stockings David Horner and an impressive array of military historians academics intelligence experts and ex and current Army UK Communication Strategies for Afghanistan, 20012014 Thomas W. Cawkwell,2016-03-09 The war in Afghanistan came to an end in 2014 after nearly thirteen years of conflict Throughout that period British officials have described UK operations there

in various conflicting and often contradictory ways as a counter terrorism mission a stabilisation mission and a counter narcotics mission respectively This book investigates how the war was sold to the British public and how Britain's transnational foreign and defence policy impacted on the unfolding of UK strategy in Afghanistan and the way it was communicated It argues that because the UK's foreign and defence policy is transnationally oriented meaning that it is foundationally aimed at maintaining alliance with the United States and the institutional coherence of NATO UK strategy is contingent upon collective security and crucially is fundamentally concerned with the means of policy maintaining alliances over the ends using alliances to effect change Explaining the inalienability of collective security systems to national security is no easy task however and when faced with the adversities of Afghanistan the UK state has since 2008 instead opted to describe the significance of Afghanistan in narrow nation centric counter terrorist concerns in order to maintain public support for collective security operations there whilst paradoxically framing the conflict in a manner that avoids talking about the transnational structure and purpose of the mission This kind of strategic communication is increasingly becoming a focus of the UK state as it faces a transnational dilemma of maintaining its collective security bonds whilst facing a public increasingly sceptical of liberal interventionism

Humanitarian and Military Intervention in Libya and Syria Aran M. Lewis, 2022-12-30 This book explores the contradictions in Britain's humanitarian and military intervention in Libya and Syria beginning with the Arab spring in 2010 The book assesses the contradictions between the expressed humanitarian intentions of British military interveners and the impact of their actions on the putative beneficiary states It demonstrates that as a result of foreign intervention both Libya and Syria were rendered non functional as unitary nations and suffered extensive harm to their people and infrastructure To evaluate the effectiveness and credibility of humanitarian warfare the author conducts a thematic analysis of debates on Libya and Syria in the House of Commons The book provides a detailed study of intentions and motives expressed by Members of Parliament of consequent British state actions and their outcomes and of MPs reactions to outcomes It provides ample evidence of duplicity insincerity indifference to harm and ulterior motives for violence that undermine moral claims and support the argument that although humanitarian warfare may be possible the leading Western activist states Britain France and the USA are poorly qualified to carry it out Illustrating a systemic failure of strategy and accountability in British foreign policy this book will be of interest to scholars and graduates of Humanitarian Studies International Relations and Military Studies
