## **Be Real Because Fake Is Exhausting:**

**Be Real** Rick Bezet, 2014-04-01 We live in a world of fakers Rather than being real with each other we present a carefully crafted persona that hides our faults and magnifies our good qualities But inside we long to be loved warts and all We long to stop hiding from each other and especially from God With candor and clarity pastor Rick Bezet calls readers to a life built on authenticity showing that the way to true freedom lies through reclaiming our hearts reviving our souls and renewing our minds in light of what God has done for us through Jesus Christ Through biblical stories and often funny personal examples Bezet encourages readers to live with passion integrity and perseverance He releases readers from the spiritual death that comes with pretending and leads them into a new life characterized by transparency rather than fear *RePresent Jesus* Dharius Daniels, 2014-10-07 Discover the joy and power of walking in the footsteps of Jesus There is an image of Jesus we often possess in our minds and there is a Jesus of the Scriptures Unfortunately the two aren't always consistent Often the emphasis in preaching teaching and writing is placed on Christ's death and resurrection These aspects of Jesus's ministry are obviously essential but so is His life Through Christ's death we received forgiveness and reconciliation however His life provides us with something that is equally essential an example Without His example godliness becomes a nebulous notion that can mutate into a religion that doesn't reflect its founder Re Present Jesus identifies twelve core character traits of Jesus and coaches the reader into discerning how these traits can be applied to their own lives and contexts Covering attributes such as His love wisdom grace generosity and humility Daniels presents a picture of Jesus that people will want to follow

*Phantom Billing, Fake Prescriptions, and the High Cost of Medicine* Terry L. Leap, 2011-04-15 U.S. health care is a 2.5 trillion system that accounts for more than 17 percent of the nation's GDP It is also highly susceptible to fraud Estimates vary but some observers believe that as much as 10 percent of all medical billing involves some type of fraud

In 2009 New York's Medicaid fraud office recovered 283 million and obtained 148 criminal convictions. In July 2010 the U.S. Justice Department charged nearly 100 patients, doctors, and health care executives in five states of bilking the Medicare system out of more than 251 million through false claims for services that were medically unnecessary or never provided. These cases only hint at the scope of the problem. In *Phantom Billing: Fake Prescriptions and the High Cost of Medicine*, Terry L. Leap takes on medical fraud and its economic, psychological, and social costs. Illustrated throughout with dozens of specific and often fascinating cases, this book covers a wide variety of crimes: kickbacks, illicit referrals, overcharging, and double billing; upcoding, unbundling, rent-a-patient, and pill mill schemes; insurance scams; short-pilling; off-label marketing of pharmaceuticals; and rebate fraud, as well as criminal acts that enable this fraud: mail and wire fraud, conspiracy, and money laundering. After assessing the effectiveness of the federal laws designed to fight health care fraud and abuse—the antikickback statute, the Stark Law, the False Claims Act, HIPAA, and the food and drug laws—Leap suggests a number of ways that health care providers, consumers, insurers, and federal and state officials can bring health care fraud and abuse under control, thereby reducing the overall cost of medical care in America.
