Transnationalism in contrast goes beyond the framework of sovereign nations and promotes connections among individuals and non governmental organizations It could be called globalism in the sense that transnationalism aims at building bridges across the globe apart from independent nation states In that sense Shibusawa was a pioneering globalist It was only in the 1990s that expressions like globalism and globalization came to be widely used This was more than sixty years after Shibusawa Eiichi s death which suggests how pioneering his thoughts were Akira Iriye *The Oberlin Evangelist* ,1855
