Race and Beauty Josie Schoel, 2025-04-29 This work examines how beauty standards specifically the ideology of fairness contributed to the racialization of bodies in early modern England Schoel emphasizes the need to dismantle whiteness's invisibility in historical criticism noting that it has long been an unexamined norm By focusing on the materiality of cosmetic whiteness the text aims to disrupt colorblind ideologies and reveal the mechanisms behind white supremacy Drawing on diverse texts like sonnets travel literature and medical treatises the book discusses how light skin and hair were idealized symbolizing Christian virtue and femininity This rhetoric of fairness not only promoted racial hierarchies but also constructed whiteness through cosmetics like whitening creams and exfoliants These practices associated with Queen Elizabeth I's image and widely reproduced in theater medicine and household texts led to a cult of whiteness The locus of the cult was Queen Elizabeth I whose materially constructed reds and whites in her portraiture and on the surface of her skin resounded throughout the commonwealth If the cult of whiteness was founded by Elizabeth's propagandistic image campaign it was facilitated and reproduced through theatrical productions medical treatises household manuals and the birth of the apothecary which made the materials of whiteness accessible to a wider socially diverse network of consumers The book is not only an ideal resource for students and scholars of early modern studies performance and Critical Race Studies but for all those seeking an introduction to constructions of race in early modern England

Skin Colour Politics Nina Kullrich, 2022-02-14 The global practice of skin bleaching is predominantly understood as an internalized legacy of colonialism and an embodiment of Western ideals of beauty This book offers a new perspective on fair skin preference in India it challenges the assumption that desires for light skin are always a desire of whiteness Rather than talking back to the colonial centre skin colour politics reorganise and reinforce social distinctions in Indian societies which are neither exclusively local nor global Based on primary research conducted in Delhi this multi dimensional study shows how skin colour intersects with and reproduces other categories of social distinction primarily gender class caste race region and religion It historically embeds fairness as an Indian precolonial yet transnational ideal of beauty The bleached body

emerges as an active and thus potentially resistant part of negotiating social status within multiple power relations and complex beauty regimes By mapping a whole geography of skin colours in India this book shows how fair skin as a locally embedded beauty norm and whiteness as a global cultural imperative interrelate Pluriversal Conversations on Transnational Feminisms Nina Lykke,Redi Koobak,Petra Bakos,Swati Arora,Kharnita Mohamed,2023-10-27 This edited volume brings transnational feminisms in conversation with intersectional and decolonial approaches The conversation is pluriversal it voices and reflects upon a plurality of geo and corpopolitical as well as epistemic locations in specific Global South East North West contexts The aim is to explore analytical modes that encourage transgressing methodological nationalisms which sustain unequal global power relations and which are still ingrained in the disciplinary perspectives that define much social science and humanities research A main focus of the volume is methodological It asks how an engagement with transnational intersectional and decolonial feminisms can stimulate border crossings Boundaries in academic knowledge building shaped by the limitations imposed by methodological nationalisms are challenged in the book The same applies to boundaries of conventional disembodied and ethically unaffected academic writing modes The transgressive methodological aims are also pursued through mixing genres and shifting boundaries between academic and creative writing Pluriversal Conversations on Transnational Feminisms is intended for broad global audiences of researchers teachers professionals students from undergraduate to postgraduate levels activists and NGOs interested in questions about decoloniality intersectionality and transnational feminisms as well as in methodologies for boundary transgressing knowledge building

How to Be a Renaissance Woman Jill Burke, 2024-01-02. An alternative history of the Renaissance as seen through the emerging literature of beauty tips, focusing on the actresses, authors and courtesans who rebelled against the misogyny of their era. Beauty, makeup, art, power. *How to Be a Renaissance Woman* presents an alternative history of this fascinating period as told by the women behind the paintings, providing a window into their often overlooked or silenced lives. Can the pressures women feel to look good be traced back to the sixteenth century? As the Renaissance visual world became populated by female nudes from the likes of Michelangelo and Titian, a vibrant literary scene of beauty tips emerged, fueling debates about cosmetics and adornment. Telling the stories of courtesans, artists, actresses and writers rebelling against the strictures of their time, when burgeoning colonialism gave rise to increasingly sinister evaluations of bodies and skin color, this book puts beauty culture into the frame. *How to Be a Renaissance Woman* will take readers from bustling Italian market squares, the places where the poorest women and immigrant communities influenced cosmetic products and practices, to the highest echelons of Renaissance society where beauty could be a powerful weapon in securing strategic marriages and family alliances. It will investigate how skin whitening practices shifted in step with the emerging sub-Saharan African slave trade, how fads for fattening and thinning diets came and went, and how hairstyles and fashion could be a tool for dissent and rebellion then as now. This surprising and illuminating narrative will make you question your ideas about your own body and ask: Why are women often so critical of their appearance? What do we stand to lose but also to gain from beauty culture? What is the relationship between looks and power? *Waste of a White Skin* Tiffany Willoughby-Herard, 2015-01-06. A pathbreaking history of the development of scientific racism, white nationalism and segregationist philanthropy in the U.S. and South Africa in the early twentieth century. *Waste of a White Skin* focuses on the American Carnegie Corporation's study of race in South

Africa the Poor White Study and its influence on the creation of apartheid This book demonstrates the ways in which U S elites supported apartheid and Afrikaner Nationalism in the critical period prior to 1948 through philanthropic interventions and shaping scholarly knowledge production Rather than comparing racial democracies and their engagement with scientific racism Willoughby Herard outlines the ways in which a racial regime of global whiteness constitutes domestic racial policies and in part animates black consciousness in seemingly disparate and discontinuous racial democracies This book uses key paradigms in black political thought black feminism black internationalism and the black radical tradition to provide a rich account of poverty and work Much of the scholarship on whiteness in South Africa overlooks the complex politics of white poverty and what they mean for the making of black political action and black people s presence in the economic system Ideal for students scholars and interested readers in areas related to U S History African History World History Diaspora Studies Race and Ethnicity Sociology Anthropology and Political Science Automatic Text Simplification Horacio Saggion,2022-05-31 Thanks to the availability of texts on the Web in recent years increased knowledge and information have been made available to broader audiences However the way in which a text is written its vocabulary its syntax can be difficult to read and understand for many people especially those with poor literacy cognitive or linguistic impairment or those with limited knowledge of the language of the text Texts containing uncommon words or long and complicated sentences can be difficult to read and understand by people as well as difficult to analyze by machines Automatic text simplification is the process of transforming a text into another text which ideally conveying the same message will be easier to read and understand by a broader audience The process usually involves the replacement of difficult or unknown phrases with simpler equivalents and the transformation of long and syntactically complex sentences into shorter and less complex ones Automatic text simplification a research topic which started 20 years ago now has taken on a central role in natural language processing research not only because of the interesting challenges it possesses but also because of its social implications This book presents past and current research in text simplification exploring key issues including automatic readability assessment lexical simplification and syntactic simplification It also provides a detailed account of machine learning techniques currently used in simplification describes full systems designed for specific languages and target audiences and offers available resources for research and development together with text simplification evaluation techniques *No Country for Old Age* Mischa Honeck,2025-01-10 Since the birth of their nation Americans have acted on the belief that theirs was a land of youth a place destined to offer a fresh start to an aging world No Country for Old Age tells this story from the founding period to our present moment but not without exposing its darker side rejuvenation has often bred grand expectations that end in division and despair Mischa Honeck reveals how Americans of diverse backgrounds have sought not only to feel and look younger but also to breathe new life into their communities Whether marching under the banners of science public health sexual liberation physical fitness nation building or world peace these youth seekers have

tended to paint their ventures in utopian colors However from the founders to today s Silicon Valley elites anti aging ventures have repeatedly magnified social inequalities often projecting visions of society that have been unmistakably classist racist misogynist and ageist Today we are experiencing rejuvenation s Janus faced legacy As transhumanists rhapsodize about cyber enhancing human bodies ghastly pandemics old age poverty and shrinking life expectancies are poised to become the new normal for many twenty first century Americans **English Synonymes explained ...
