*Gender, Costume, Textile, Technique* Barbara Hartley, 2025-02-27 This book a unique contribution to the field of kimono and Japan related clothing studies challenges uncritical readings of clothing from the lives of Japanese women and cultural representations of women wearing these clothes Chapters ground understandings of clothing including kimono in the lived experience of different groups of women in modern Japan Also discussing cosplay outside Japan the collection argues that items worn by women are produced and consumed in a gendered and highly politicised socio historical environment Examining for example women's recent renewed enthusiasm for kimono in addition to representations of monpe kimono and other attire in film and

Chinese Masculinities in a Globalizing World Kam Louie, 2014-11-20 This book explores how the traditional ideal of Chinese manhood, the wen (cultural attainment) and wu (martial prowess) dyad has been transformed by the increasing integration of China in the international scene It discusses how increased travel and contact between China and the West are having a profound impact showing how increased interchange with Western men for whom wu is a more significant ideal has shifted the balance in the classic Chinese dichotomy and how the huge emphasis on wealth creation in contemporary China has changed the notion of wen itself to include business management skills and monetary power The book also considers the implications of Chinese soft power outside China for the reconfigurations in masculinity ideals in the global setting The rising significance of Chinese culture enables Chinese cultural norms including ideals of manhood to be increasingly integrated in the international sphere and to become hybridised The book also examines the impact of the Japanese and Korean waves on popular conceptions of desirable manhood in China Overall it demonstrates that social constructions of Chinese masculinity have changed more fundamentally and become more global in the last three decades than any other time in the last three thousand years

Modern Girls on the Go Alisa Freedman, Laura Miller, Christine R. Yano, 2013-04-17 This spirited and engaging multidisciplinary volume pins its focus on

the lived experiences and cultural depictions of women's mobility and labor in Japan. The theme of modern girls continues to offer a captivating window into the changes that women's roles have undergone during the course of the last century. Here we encounter Japanese women inhabiting the most modern of spaces in newly created professions moving upward and outward claiming the public life as their own: shop girls, elevator girls, dance hall dancers, tour bus guides, airline stewardesses, international beauty queens, overseas teachers, corporate soccer players, and even female members of the Self Defense Forces. Directly linking gender, mobility and labor in 20th and 21st century Japan, this collection brings to life the ways in which these modern girls historically and contemporaneously have influenced social roles, patterns of daily life and Japan's global image. It is an ideal guidebook for students, scholars and general readers alike.

### **Fashion, Identity, and Power in Modern Asia**

Kyunghee Pyun, Aida Yuen Wong, 2018-10-25. This edited volume on radical dress reforms in East Asia takes a fresh look at the symbols and languages of modernity in dress and body. Dress reform movements around the turn of the twentieth century in the region have received little critical attention as a multicultural discourse of labor, body, gender, identity, colonialism and government authority. With contributions by leading experts of costume, textile history of China, Korea and Japan, this book presents up to date scholarship using diverse methodologies in costume history, history of consumption and international trade. Thematically organized into sections exploring the garments and uniforms, accessories, fabrics and fashion styles of Asia, this edited volume offers case studies for students and scholars in an ever expanding field of material culture including but not limited to economic history, visual culture, art history, history of journalism and popular culture. *Fashion, Identity and Power in Modern Asia* stimulates further research on the impact of modernity and imperialism in neglected areas such as military uniform, school uniform, women's accessories, hairstyles and textile trade.

**Socioaesthetics** Anders Michelsen, Frederik Tygstrup, 2015-10-05 Aesthetics is no longer the preserve of art historians and philosophers of art Changes in society culture economy urban dynamics and everyday life push us towards considering the aesthetic components of traditionally non aesthetic domains Today it is not only legitimate but necessary to query the relationship between the social as a cohesive and encompassing form of community and human institutions and the aesthetic that is the sensual sensory or perhaps better the sensible Increasingly the social seems to emerge from the sensible and sentient meaning of objects The volume *SocioAesthetics Ambience Imaginary* collects scholars from social science aesthetics arts and cultural studies in case driven debate ranging from biometrics to luxury commodities on how a new alignment of aesthetics and the social is possible and what the possible prospects of this may be
