Handbook of Research on Student-Centered Strategies in Online Adult Learning Environments Fitzgerald, Carlton J., Laurian-Fitzgerald, Simona, Popa, Carmen, 2018-06-08 As traditional classroom settings are transitioning to online environments teachers now face the challenge of using this medium to promote effective learning strategies especially when teaching older age groups Because adult learners bring a different set of understandings and skills to education than younger students such as more job and life experiences the one size fits all approach to teaching does not work thus pushing educators to create a student centered approach for each learner The Handbook of Research on Student Centered Strategies in Online Adult Learning Environments is an important resource providing readers with multiple perspectives to approach issues often associated with adult learners in an online environment This publication highlights current research on topics including but not limited to online competency based education nontraditional adult learners virtual classrooms in public universities and teacher training for online education This book is a vital reference for online trainers adult educators university administrators researchers and other academic professionals looking for emerging information on utilizing online classrooms and environments in student centered adult education

Checking for Understanding Douglas Fisher, Nancy Frey, 2015-12-18 A teacher presents a lesson and at the end asks students if they understand the material The students nod and say they get it Later the teacher is dismayed when many of the students fail a test on the material Why aren't students getting it And just as important why didn't the teacher recognize the problem In *Checking for Understanding* Douglas Fisher and Nancy Frey show how to increase students understanding with the help of creative formative assessments When used regularly formative assessments enable every teacher to determine what students know and what they still need to learn Fisher and Frey explore a variety of engaging activities that check for and increase understanding including interactive writing portfolios multimedia presentations audience response systems and much more This new 2nd edition of *Checking for Understanding* has been updated to reflect the latest thinking in formative assessment and to show how the concepts apply in the context of Fisher and Frey's work on gradual release of responsibility guided instruction formative assessment systems data analysis and quality instruction Douglas Fisher and Nancy Frey are the creators of the Framework for Intentional and Targeted FIT Teaching They are also the authors of numerous ASCD books including *The Formative Assessment Action Plan* *Practical Steps to More Successful Teaching and Learning* and the best selling *Enhancing RTI How to Ensure Success with Effective Classroom Instruction and Intervention*

Classroom Talk in Practice Teachers' Experiences of Oracy in Action Rupert Knight, 2022-11-24 This thought provoking and highly informative book is a perfect handbook for teachers and school leaders interested in improving the quality of talk in their classrooms Amy Gaunt and Alice Stott Directors at Voice 21 and authors of *Transform Teaching and Learning through Talk the Oracy Imperative* For practising teachers it offers a guide to how to exercise sound professional judgement in selecting and sustaining strategies that place talk at the centre of teaching

and learning so that all students benefit Alan Howe Education Consultant and Associate with Oracy Cambridge Purposeful classroom talk or oracy is increasingly recognised as fundamental for supporting both personal and academic development and for enhancing genuine participation in learning Based on classroom observations and interviews this book offers an analysis of schools responses to improving the quality of both learning to talk and talking to learn The book explores classroom talk through the analysis and comparison of examples drawn from diverse schools and age groups across primary and secondary education settings Alongside a wealth of practical strategies the book offers an insight into the realities of implementation helping teachers to make well informed judgments about developing classroom talk within their own schools This book features Examples of lesson activities and resources accompanied by explanations and advice from practitioners Vivid depictions of real classroom practice with comprehensive analysis linked to up to date research and theory Questions and prompts to promote reflection on the reader s own context An emphasis on teachers professional judgement and informed implementation of oracy practices A holistic and accessible resource this book is aimed at experienced early career and student teachers as well as other education professionals Rupert Knight was a teacher in schools in London and Nottingham He currently works at the University of Nottingham UK on teacher education and other postgraduate courses Rupert is the author of Classroom Talk and he continues to work closely with teachers to develop the use of spoken language in the classroom

Productive Multivocality in the Analysis of Group Interactions Daniel D. Suthers, Kristine Lund, Carolyn Penstein Rosé, Chris Teplov, Nancy Law, 2013-12-02 The key idea of the book is that scientific and practical advances can be obtained if researchers working in traditions that have been assumed to be mutually incompatible make a real effort to engage in dialogue with each other comparing and contrasting their understandings of a given phenomenon and how these different understandings can either complement or mutually elaborate on each other This key idea applies to many fields particularly in the social and behavioral sciences as well as education and computer science The book shows how we have achieved this by presenting our study of collaborative learning during the course of a four year project Through a series of five workshops involving dozens of researchers the 37 editors and authors involved in this project studied and reported on collaborative learning technology enhanced learning and cooperative work The authors share an interest in understanding group interactions but approach this topic from a variety of traditional disciplinary homes and theoretical and methodological traditions This allows the book to be of use to researchers in many different fields and with many different goals and agendas
