Ezekiel's Vision Accounts as Interrelated Narratives Janina Maria Hiebel,2015-06-16 Ezekiel is one of the best structured books in the Old Testament It is commonly recognized that the strongly interrelated vision accounts Ez 1 1 3 15 8 11 37 1 14 40 48 contribute greatly to this impression of unity However there is a marked lacuna in publications focusing on the vision accounts in Ezekiel as an interconnected text corpus The present study combines redaction critical analysis with literary methods that are typically used in a synchronic approach Drawing on the paradigm of Fortschreibung it is the first to present a united redaction history that takes into account the growing interconnections and dependencies between the vision accounts Building on these results the second part follows the development of selected themes such as the relationships between characters the roles of intermediate figures and anthropological and theological implications throughout the stages of redaction The study thus represents an important step towards an understanding of the complex redaction history of the book of Ezekiel and indeed of its theology The combination

of diachronic and synchronic methods makes it relevant for scholars of both directions and is itself a methodological statement Guide to Managing Growth Rupert Merson,2011-07-26 The how to guide to tackling business growth problems head on Effectively responding to the demands of a growing company regardless of size is one of the great challenges facing businesses in this increasingly competitive climate Successful growth requires careful attention to the robustness of organizational structure and systems as well as reconciling the different speeds at which different division within a company may develop Guide to Managing Growth is one of the first and only books to explicitly address these challenges and help prepare business leaders to grow their business in productive successful ways Written by Rupert Merson of the London Business School Business growth needs intelligent and sensitive management Applicable to all types of business young or more mature small or substantial Examines the change growth brings to every aspect of the business people management marketing customer and client management financial management organizational design and performance management and measurement Jargon free and to the point Guide to Managing Growth explores the different aspects of growth and outlines strategies and tactics that will enable businesses to address the issues they face and move forward to a bigger and even more successful future **Getting America's Students Ready for the 21st Century** United States. which develops financial reporting rules used by corporations in more than a hundred countries and the International Organization for Standardization and the International Electrotechnical Commission which account for 85 percent of all international product standards B the and Mattli offer both a new framework for understanding global private regulation and detailed empirical analyses of such regulation based on multi country multi industry business surveys They find that global rule making by technical experts is highly political and that even though rule making has shifted to the international level domestic institutions remain crucial Influence in this form of global private governance is not a function of the economic power of states but of the ability of domestic standard setters to provide timely information and speak with a single voice B the and Mattli show how domestic institutions abilities differ particularly between the two main standardization players the United States and Europe
