Manual de medicina prehospitalaria de urgencia, Gerardo José Illescas Fernández, 2023-10-02. México al igual que otros países enfrenta complejos de salud pública ante la creciente demanda de atención de servicios de emergencia generada principalmente por las lesiones ocasionadas en accidentes de tráfico y la violencia. Anualmente mueren más de 64000 personas por lesiones de causa externa. Por otra parte, la transición epidemiológica social y ambiental que experimenta la población evidencia una alta probabilidad de sufrir una urgencia médica si consideramos la creciente demanda de atención por enfermedades agudas y crónicas agudizadas, más de 27 millones de casos que ponen en peligro la vida y que han provocado que la población exija atención médica oportuna de calidad y con equidad.

Ante esta problemática es importante recalcar la necesidad de implementar normas reglamentos y leyes que regulen la atención médica prehospitalaria así como profesionalizar al personal que interviene en los cuidados que se proporcionan a los pacientes con una urgencia médica. Actualmente la educación basada en competencias es un proceso innovador que desarrolla pericia profesional integrando el conocimiento científico y las habilidades y destrezas para el trabajo. Vincula la teoría con la práctica en escenarios reales conformado en dos vertientes la educativa y la laboral. La primera es la educación formal donde se forman los técnicos profesionales básicos y el técnico superior universitario por medio de una institución reconocida tanto por la Secretaría de Educación Pública como por la Dirección General de Profesiones contando con la documentación necesaria para avalar sus conocimientos. La segunda se refiere a la acreditación de aquellas personas que prestan sus servicios a bordo de ambulancias cuya formación y capacitación hasta ahora se han realizado de forma empírica y no formal partiendo de que son los años de experiencia así como la capacitación a través de cursos monográficos diplomados talleres seminarios etc en diversas instituciones que ofrecen servicios de emergencia Cruz Roja Protección Civil e instituciones privadas las que avalan sus capacidades conocimientos y desempeño.
