Access Controlled Ronald Deibert, 2010 Report from the OpenNet Initiative

TO HELL IN A HANDCART John B Shanks and Jeni Kingston, 2019-11-19 Captured near Dieppe in August 1942 after crash landing his Spitfire John Shanks was sent to Lamsdorf PoW camp where he kept an almost daily account of his life there He was just 20 years old but due to the deprivations of camp life felt 40 when he was liberated 2 years later At the end of the war as the Soviet Army was advancing German authorities decided to evacuate the PoW camps and march the internees westward The March took a harrowing toll on the already undernourished and ill equipped PoWs The winter was the worst for nearly 50 years reaching temperatures as low as 25C The conditions made marching treacherous especially as the columns of 200 300 PoWs often had to march up to 30kms a day across fields and through deep snow Night time billets were equally difficult and food often unobtainable Many PoWs died during this appalling time His

diaries are not only a compelling insight into the despair and struggle but also the hope and camaraderie that comprised his wartime experience They also are an interesting reflection on the disenchantment felt by so many after the war in Europe ended and the suspicion that future conflicts were just around the corner

China, Russia, and Twenty-first Century Global Geopolitics Paul J. counterbalance to the United States and democratic nations in shaping the contemporary and emerging geopolitical landscape Nevertheless the West is still an important partner for China and Russia Both seek better relations with the West but on the basis of mutual respect and equality Lastly Russia and China have frictions in their relationship and not all of their interests overlap The Sino Russian relationship has gained considerable momentum particularly since 2014 as Moscow turned to Beijing attempting to offset tensions with the West in the aftermath of Russia s annexation of Crimea and intervention in Ukraine However so far China and Russia describe their relationship as a comprehensive strategic partnership but they are not allies

Building Fjords in the Great Deserts James Michael Matthew,2024-05-30 After the United Nations held its 2023 Climate Change Conference it became vogue to label the fossil fuels industry as the elephant in the room But it s really just the tiny baby elephant The real elephant in the room the one that no one wants to acknowledge let alone talk about is that net zero carbon and sustainability will never work to defeat climate change It s also not practical as it would result in the destruction of economies and force people to live lives they do not want to live Even if it could be achieved it would not fix rising ocean coastlines biodiversity loss desertification and climate change James Michael Matthew the founder and chairman of JM Prophecies Corp and the author of numerous books on how to defeat climate change proposes the perfect solution in this book building fjords in the great deserts His plan to defeat climate change begins with pumping ocean water into salt basins that already exist in deserts and arid regions around the world Consider what s at stake and find out how the author s strategy could be implemented step by step in this groundbreaking work

Sunbathing in the Rain Gwyneth Lewis,2006-11-15 *Sunbathing in the Rain* is undoubtedly the best book I have ever read about one person s experience of depression Dorothy Rowe author of *Breaking the Bonds* This upbeat very readable and engaging view of depression as a temporary retrenchment a breathing space in which to adjust better to life makes encouraging reading *Spectator* Gwyneth Lewis writes with clarity beauty and metaphorical precision She conveys the

darkness the silence the selfishness the mental clutter of depression brilliantly Simon Hattenstone Guardian Welsh poet Gwyneth Lewis shares her personal story of wrestling with clinical depression and describes what she learned along the way about coping with the disease The text is aimed primarily at those who are currently depressed and are struggling to recover The emphasis throughout is on the healing power of self acceptance and truth telling This is a reprint of a book first published in London by Flamingo in 2002 www.booknews.com This might well be the Age of Depression More people than ever now experience the disease directly or see a friend or relative succumb to it Among their number is Gwyneth Lewis And she set about writing this book simply because she wished something like it had existed for her when she was in the middle of her depression Depression is assassination The depressive is both victim and detective charged with tracking down the perpetrator of his or her own murder By drawing on her own experience of struggling with the affliction by highlighting ways of coping ways of truth telling and ways of thriving in a straightforward robust fashion full of casual wisdom and easy wit Gwyneth re embarks on a journey that nearly killed her first time round and returns with this perhaps the first truly undogmatic undemanding downright useful book about depression

Four Chancellors and a Funeral Russell

Jones,2024-03-21 The sequel nobody wants After a decade of the Tories could it get any worse Spoiler it does Towards the end of 2021 Britain had been frogmarched into an escalating series of surreal calamities Brexit was a disaster the NHS was in crisis the government was bathed head to toe in impropriety senior Tories were still acting as though the public purse was their personal feed trough and the air crackled with anger about PartyGate All of which led to an inglorious start to 2022 the year the UK saw two monarchs three prime ministers and four chancellors From Boris Johnson who trashed our international reputation and handed billions to his mates so they could ineptly fight a pandemic while he stayed at home shagging and acting as a super spreader to Liz Truss a drive by prime minister who managed to kill off the queen and crash the economy in a single week And now we re led by Rishi Sunak who doesn t know how to use a credit card drives a pretend car and grinningly promises even more poverty Four Chancellors and a Funeral delivers more of Russell Jones s signature scathing wit combining a detailed historical record of 2021 and 2022 with acerbic commentary all of it leavened by jokes at the seemingly endless maelstrom of failures nincompoops and hypocrisies

Development in Asia Derrick M. Nault,2008

Development is one of the most ubiquitous yet least understood concepts of our age It is something all governments claim to be engaged in and is considered desirable by scholars activists policymakers and laypeople alike Yet it is also a highly contested term For some development is simply a matter of economic growth Others maintain that it must entail improving life expectancy literacy education levels and access to resources Others yet disillusioned by the results of development initiatives have rejected development altogether equating it with a self serving aid industry that entraps the poor in a vicious cycle of dependency Still critics argue these post development theorists merely replicate earlier doctrines of development and have themselves become part of the problem they wish to transcend This book a collection of works by scholars of

development examines the theory and practice of development and its implications and varied meanings in Asian contexts It attempts to understand development both in its objective and constructivist senses That is it examines how societies and nations have developed over time and how leaders experts and governments have attempted to shape these same societies and nations It also analyzes development in civil society and how non state actors have conceived participated in and been affected by the process Has true development been occurring in Asia Is it possible to direct development How are real people affected by development Should the concept of development be retained or discarded These are a few key questions covered in this book **Prospects for Codifying the Relationship Between Central and Local Government** Great Britain:

Parliament: House of Commons: Political and Constitutional Reform Committee,2013-01-29 The Committee has produced its own code included in this report for relations between central and local government The code is intended to replace the estimated 1 293 duties imposed on local government today The Committee concludes that the balance of power between central and local government is skewed in favour of the centre and needs to be addressed The devolution of power to Scotland Wales and Northern Ireland has been successful and is an evolving process there is no apparent reason why local government in England is not capable of using similar powers Power and finance must go together if local government is to become an equal partner it should have own source of revenue Local authorities in England could also have a share of the existing income tax take and local councils freed to raise additional revenue with the consent of their electorates English local government lacks some of the most basic constitutional protections that are available to some of its counterparts in a number of other mature European democracies The Government should examine the possibilities of a stronger constitutional status for local government through an entrenched statutory code or a similar proposal A code for relations between central and local government enforced by statute could be beneficial to both tiers of government for several reasons First it could help set out exactly where powers do and should lie thereby increasing transparency for the electors Secondly it could help redress the overcentralisation of England Thirdly it could provide an economic boost that the country sorely needs **The**
