

Two brown bear figurines are positioned on either side of a central text box. They are standing on their hind legs and holding their front paws together, forming a heart shape. The bears have a light brown head and neck, with darker brown fur on their bodies. They are looking towards the center.

Bears On Bears Interviews And Discussions:

Bears on Bears Ron Jackson Suresha, 2002 A candid examination of gay male subculture called bears who for the uninitiated are gay men who are defiantly uninterested in society's ideal of physical appearance. Instead, they celebrate the fact that they are often large, never shave their body hair, and don't give a damn about what fashions are in style. They often drive trucks as well. Challenging, thought-provoking, and often humorous, this is a penetrating study of an often marginalised gay culture, albeit one with a lot of members. *The Contemporary Reader of Gender and Fat Studies* Amy Erdman Farrell, 2023-06-28 The Contemporary Reader of Gender and Fat Studies is a key reference work in contemporary scholarship situated at the intersection between Gender and Fat Studies, charting the connections and tensions between these two fields. Comprising over 20 chapters from a range of diverse and international contributors, the Reader is structured around the following key themes: theorizing gender and fat, narrating gender and fat, historicizing gender and fat, institutions and public policy, health and medicine, popular culture and media, and resistance. It is an intersectional collection highlighting the ways that gender and fat always exist in connection with multiple other structures, forms of oppression, and identities, including race, ethnicity, sexualities, age, nationalities, disabilities, religion, and class. The Contemporary Reader of Gender and Fat Studies is essential reading for scholars and advanced students in Gender Studies, Sexuality Studies, Sociology, Body Studies, Cultural Studies, Psychology, and Health. The Open Access version of this book is available at <http://www.taylorfrancis.com> and has been made available under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license. *The Fat Studies Reader* Esther D. Rothblum, Sondra Solovay, 2009-11-04 Explores a wide range of topics related to body weight. From the historical construction of fatness to public health policy, from job discrimination to social class disparities, from chick lit to airline seats, this collection provides an overview of fat studies, an examination of the movement's fundamental concerns, and a look at its research. **Post-Show Discussions in New Play Development** T. Fisher, 2014-01-10 Many theatres host post-show discussions or talkbacks as part of their season. This book is a critical examination of what has not worked with post-show discussions, utilized in new play development, providing a framework for understanding discussions, steps for building the foundation of them, and various strategies for structuring them. *Dominion of Bears* Sherry Simpson, 2013-10-18 Long ago we invited bears into our stories, our dreams, our nightmares, our lives. We have always sought them out where they live, for their hides, their meat, their beauty, their knowingness. Human country and bear country exist side by side. As Sherry Simpson suggests, the relationship between bears and humans is ancient and ongoing, and in Alaska, profoundly and often uncomfortably close. A huge number of North America's bears live in Alaska, including at least 31,000 brown bears, 100,000 black bears, and 3,500 polar bears. And nearly every aspect of Alaskan society reflects their presence, from hunting to tourism, marketing to wildlife management to urban planning. A long time Alaskan, Simpson offers a series of compelling essays on Alaskan bears in both wild and urban spaces, because in Alaska, bears are found not only in their natural habitat but also in

cities and towns Combining field research interviews and a host of up to date scientific sources her finely polished prose conveys a wealth of information and insight on ursine biology behavior feeding mating social structure and much more Simpson crisscrosses the Alaskan landscape in pursuit of bears as she muses marvels and often stands in sheer awe before these charismatic creatures Firmly grounded in the expertise of wildlife biologists hunters and viewing guides she shows bears as they actually are not as we imagine them to be She considers not only the occasionally aggressive behavior bears need to survive but also the violence exacted upon them by trophy hunters advocates of predator control or suburbanites who view bears as land sharks that threaten the safety of their families Shifting effortlessly between fascinating facts and poetic imagery Simpson crafts an extended meditation on why we are so drawn to bears and why they continue to engage our imaginations populate indigenous mythologies and help define our essential visions of wilderness As Simpson observes The slightest evidence that bears share your world or that you share theirs can alter not only your sense of the landscape but your sense of yourself within that landscape

Inside Interviewing James Holstein, Jaber F. Gubrium, 2003-03-21 Inside Interviewing highlights the fluctuating and diverse moral worlds put into place during interview research when gender race culture and other subject positions are brought narratively to the foreground It explores the facts thoughts feelings and perspectives of respondents and how this impacts on the research process

nature lovers and environmentalists **My First Summer in the Sierra (With Original Drawings & Photographs)** John Muir, 2024-01-09 In *My First Summer in the Sierra* John Muir offers a captivating narrative that intertwines memoir, natural history, and philosophical reflection. Spanning his transformative experiences during the summer of 1869 in California's Sierra Nevada, Muir's lyrical prose immerses readers in the majesty of the landscape while articulating his deep reverence for nature. The book serves not only as a vivid account of Muir's adventures but also examines the intricate relationships between humanity and the natural world, a theme that resonates throughout the American Romantic literature of the 19th century and provides a precursor to later conservation movements. John Muir often referred to as the Narrative of the United States Exploring Expedition During the Years 1838, 1839, 1840, 1841, 1842 Charles Wilkes, 1845 **Narrative of the United States Exploring Expedition ... 1838[to] ... 1842 ...** Charles Wilkes, 1845 *Folklore* Joseph Jacobs, Alfred Trübner Nutt, Arthur Robinson Wright, William Crooke, 1895 Most vols for 1890 contain list of members of the Folklore Society *Restoring America's Wildlife, 1937-1987* Harmon Kallman, 1987 Fittingly the Act's chief sponsors were a Senator from Nevada Key Pittman and a Representative from Virginia A Willis Robertson. The Pittman Robertson Act, as it came to be called, sped through Congress and was signed into law by President Franklin Roosevelt on September 2, 1937. From a modest beginning, the Pittman Robertson program has grown with the economy and the human population of our country. By now it has channeled nearly 1.7 billion in Federal excise tax receipts augmented by some 600 million from the States into activities to restore wildlife. The projects include State acquisition of acreage needed to bring wildlife back, research into wildlife requirements and problems, active management of habitats, and development of scientific ways to enable wildlife and people to share our land in harmony. The program has strengthened State governments and built wildlife management into a respected profession **Teaching Mathematics as to be Meaningful - Foregrounding Play and Children's Perspectives** Hanna Palmér, Camilla Björklund, Elin Reikerås, Jessica Elofsson, 2023-10-29 This open access book's theme is Teaching mathematics as to be meaningful, foregrounding children's play and perspectives. It discusses the relation between teachers, children, and mathematical content within the context of play, with a particular focus on the framing of these relations within this context, which is an important theme in the debate on whether teaching should be integrated with or separated from children's play. The work further addresses meaningfulness in the learning process, particularly from the child's perspective. Globally, most guidelines and curricula for early childhood education mention play as one of the key features for young children's learning. Still, there are quite different views on the definitions of play and in what ways play should become part of children's learning. The chapters of the book mirror the research topics presented at the fifth POEM conference in May 2022, divided into four sub-themes: Play and learning, Children's perspectives on mathematics, Teachers' competencies, and Theorizing aspects of early mathematics education.
