From Book to Screen Keiko I. McDonald, 2016-09-16 Of all the world's cinemas Japan's is perhaps unique in its closeness to the nation's literature past and contemporary The Western world became aware of this when Akira Kurosawa's *Rashomon* was awarded the Grand Prize at the Venice film festival in 1951 and the Oscar for best foreign film in 1952 More recent examples include Shohei Imamura's *Eel* which won the Palm d'Or Best Picture at Cannes in 1997 From Book to

The first part offers an historical and cultural overview of the working relationship that developed between pure literature and film. It deals with three important periods in which filmmakers relied most heavily on literary works for enriching and developing cinematic art. The second part provides detailed analyses of a dozen literary works and their screen adoptions.

She is at the forefront of a groundbreaking technology that will change the way water is delivered to every household in the city, but only if she can get people to believe in her work. Newly appointed Commissioner of Water for New York, Nicholas Drake is highly skeptical of Rosalind and her team's techniques. When a brewing court case throws him into direct confrontation with her, he is surprised by his reaction to the lovely scientist. While Rosalind and Nick wage a private war against their own attraction, they stand firmly on opposite sides of a battle that will impact far more than just their own lives. As the controversy grows more public and inflammatory and Rosalind becomes the target of an unknown enemy, the odds stacked against these two rivals swiftly grow more insurmountable with every passing day.

The Enchantments of Mammon Eugene McCarraher, 2019-11-12 An extraordinary work of intellectual history as well as a scholarly tour de force, a bracing polemic and a work of Christian prophecy, McCarraher challenges more than 200 years of post-Enlightenment assumptions about the way we live and work. The Observer. At least since Max Weber, capitalism has been understood as part of the disenchantment of the world, stripping material objects and social relations of their mystery and magic. In this magisterial work, Eugene McCarraher challenges this conventional view. Capitalism, he argues, is full of sacrament, whether one is prepared to acknowledge it or not. First flowering in the fields and factories of England and brought to America by Puritans and evangelicals, whose doctrine made ample room for industry and profit, capitalism has become so thoroughly enmeshed in the fabric of our society that our faith in the market has become sacrosanct. Informed by cultural history and theology as well as management theory, *The Enchantments of Mammon* looks to nineteenth-century Romantics whose vision of labor combined reason, creativity, and mutual aid for salvation. In this impassioned challenge to some of our most firmly held assumptions, McCarraher argues that capitalism has hijacked our

intrinsic longing for divinity and urges us to break its hold on our souls A majestic achievement It is a work of great moral and spiritual intelligence and one that invites contemplation about things we can't afford not to care about deeply
